

OPEN FIGHT FOR LEAGUE CONTROL

HOUSE TO PASS SOLDIER BONUS BILL TODAY

SUSPENSION OF RULES IS VOTED ON THE MEASURE

Party Lines Broken in Two Roll Calls Taken on the Measure in Lower House

PASSAGE IS FORECAST

Leaders Certain That Compromise Compensation Measure Will be Put Through

FIGHT ON RULE

Washington, March 23.—A sharp fight against what they characterized as "gag rule" was launched in the house by Democratic leaders immediately after the majority presented their program for passage of the bonus bill before adjournment.

When Chairman Campbell of the rules committee presented a resolution to make this suspension day, Rep. Garrett, Democrat, Tennessee, made a point of order saying it was the avowed and sole purpose of Republican leaders to put the bill through in such fashion as to prevent a motion to reconsider and asserting that this was in violation of rules of the house.

Speaker Gillett overruled Mr. Garrett's point of order after a brief but sharp wrangle between leaders on the two sides.

Washington, March 23.—Passage of the four billion dollar soldier bonus bill by the house before adjournment was made certain today with the adoption of a resolution providing for consideration of the measure under a suspension of the rules.

The vote on the resolution was 221 to 211 and was without a roll call. Previously the house had adopted a motion for the previous question by a roll-call vote of 276 to 126. As the roll-call proceeded there was more than the usual hub-bub on the floor and those in the crowded galleries—strangers to congressional customs—looked down in surprise as the members milled about talking and laughing while the clerk read the names of the 435 on the list. Those who voted were forced to shout at the top of their voices in order to have their vote heard.

There was a breaking of party lines on the vote for suspension resolution. Many of the Democrats who voted in the negative in this motion were counted upon to support the bonus bill on the final vote and leaders were confident that more than the two-thirds majority required under the rules would be obtained.

PROGRAM OF DAY

Washington, March 23.—Suspension of the rules and passage of the soldier's bonus bill before adjournment tonight was the program today in the house. Democratic leaders were all set to make a determined fight against the suspension resolution which would prevent changing of even a comma in the bonus measure as approved by the ways and means committee.

EMPLOYERS TO MEET AT FARGO

Annual Session 'is' Fixed by Associated Industries

Grand Forks, N. D., March 23.—The annual meeting of the Associated Industries of North Dakota is being held in Fargo today.

The election of officers will include balloting for president, two district vice presidents, secretary-treasurer and three directors whose terms expire this year. O. J. Barnes of Grand Forks is president; L. D. Richardson of Fargo, district vice president; L. H. Piper, of Minot, district vice president; R. E. Wenzel, secretary-treasurer, and the three directors are R. J. Cone of Fargo, J. A. Pierce of Fargo, and J. F. Bacon, of Grand Forks.

It is probable that a question of changing the office of the association from Grand Forks to Fargo will come up at the meeting.

The sessions opened at 9 A. M. with the registration of members at the Commercial club and at 10 o'clock the meetings opened. The members took luncheon together at noon when a number of local speakers were heard. The sessions began again at 2 P. M.

At 6:30 the banquet will take place and a prominent speaker from Minneapolis will talk.

U. S. REVENUES FALL FAR SHORT

Washington, March 23.—On the basis of income and profits taxes of the March 15 installment a shortage of \$200,000,000 in the estimated revenues from these sources for the calendar year, 1922, was estimated today by the Treasury.

FINAL CONFERENCE TO END MINERS STRIKE EXPECTED TO FAIL; LEADERS LAY LINES IN EXPECTED LONG FIGHT

American Federation of Labor to Support Miners in Threatened Coal Strike April 1

NO VIOLENCE, WARNING

Attorney General Says that Government will Tolerate no Violence During Strike

ASKS U. S. PROBE

Washington, March 23.—Investigation of conditions in the coal mining industries by a special commission to be appointed by the president is called for in a bill introduced by Rep. Bland, republican, Indiana.

WARNS AGAINST VIOLENCE

Washington, March 23.—Warning that the federal government would tolerate no use of violence to prevent coal production during the threatened coal strike was issued today by Attorney General Daugherty.

New York, March 23.—In eleventh hour attempts to halt preparations for a nation-wide strike in the coal industry, the arbitration committee of anthracite miners and operators met behind locked doors here.

The committee consisted of four miners and four operators. With them sat two non-voting neutrals, a chairman and a secretary.

Upon the conference will depend whether 200,000 anthracite workers shall proceed with their 400,000 brethren in the bituminous fields and prepare to drop their tools April 1 while their 19 wage demands are given consideration.

Representatives of the miners entered the meeting with little expectation of reaching agreement.

GOMPERS GIVES SUPPORT

New York, March 23.—The nationwide strike of anthracite and bituminous coal workers, set for April 1, will be prosecuted "with the fullest and most effective co-operation of the American Federation of Labor," it was announced here today after a visit to mine officials of envoys of Samuel Gompers, president of the American Federation of Labor. With the assurance of the American Federation of Labor support of representatives of the anthracite workers here today were optimistic of success in the general strike. They expressed confidence that should the strike become a drawn-out battle between the operators and miners' railroad members of the American Federation of Labor would come to their moral and financial aid through the railroad-miners protective alliance.

With these assurances the miners of the wage arbitration committee of eight went into their final conference this noon prior to their departure for Cleveland to complete arrangements for putting it into effect.

READY FOR TIE-UP

Indianapolis, March 23.—Without hope apparent of any developments forestalling the coal strike set for April 1, officials of the United Mine Workers of America here declared that the miners were ready for a general suspension of many week's duration. None, however, would predict how long the walkout would continue, asserting that their fight would continue indefinitely.

While no official forecast of length of the strike was made, it was indicated authoritatively that the union officials felt that any wage conference with operators of the central competitive field was doubtful until the big coal stocks now on hand had been depleted. Operators here said the stocks on hand would meet the country's requirements for two months, and that meanwhile non-union fields could supply almost half the normal demand.

While the strike in the soft coal fields hinges on the situation in the central competitive field, which is the union's basis for wages of all soft coal districts, the strike in Pennsylvania anthracite fields may be ended before that in the soft coal fields, for negotiations now are under way for a new anthracite wage agreement.

MAKE \$100,000 JEWELRY HAUL

Cincinnati, March 23.—Within full view of hundreds of passers-by and with a policeman directing traffic not a hundred feet away three bandits today held up the Liberal Loan office in the heart of the city and escaped with diamonds and jewelry estimated by Sam Sabin, owner of the pawn shop, at \$100,000.

25 MILE AREA IS UNDER WATER

St. Paul, March 23.—An area about 25 square miles in the vicinity of Ortonville and the upper end of Marsh lake is under water, but no serious loss will result. S. E. Willard, state drainage and water commissioner said today.

5 CANDIDATES FOR 3 OFFICES; NONE DEFEATED

Halliday, N. D., March 23.—At the city election held in Halliday Tuesday, five candidates, to fill three offices were defeated. For trustee in the first ward, J. D. Rempel, bank cashier, and T. Leroy Evans, newspaper man tied. In the second ward, Fred Hall, a druggist and P. J. Forward, garage owner, are also a tie, the latter running on stickers, while in the third ward, Maurice Wasem, unopposed, is elected.

Just how the ties will be settled is not known at this time. As is usual in all elections, a few are "on the stretch" but the candidates themselves are taking the result good naturedly.

BANDIT KILLED WHILE ROBBING IN GRAND FORKS

Young Gunman is Bested in a Free-for-all Fight in Grand Forks Store

Grand Forks, N. D., March 23.—Ed Jensen, Brainerd, Minn., was shot and killed with his own gun after he had been bested in a free-for-all fight when he attempted to hold up J. H. Gleason and Frank Miller, in the Gleason Grocery store here at 8:30 o'clock last night.

The young gunman entered the store with the smiling and easy command "stick 'em up." Gleason and Miller who were seated near the door thought it was a practical joke. Gleason with his hands in his pockets said he had never "stuck 'em up yet."

The desperado knocked Gleason from his chair. He sprang from his position on the floor and grabbed the gun arm of his assailant and shouted to Miller for help. The two men grappled with the bandit and the gun flew from his hand.

Gleason secured the pistol and leaving Miller to hold their captive went to telephone the police. Seeing that Miller was unable to hold the gunman, Gleason left the phone and went to his aid just as the man broke away and ran thru the door. Gleason fired one shot and the bandit fell dead with a bullet in his head. The only other shot was fired when Gleason first grappled with the youth.

From letters found in a suitcase in a room occupied by the bandit at a local hotel, police believe him to have been Ed Jensen, 80 Evergreen Avenue, Brainerd, Minn.

Jensen is said to be wanted by police in his home town and in Fargo in connection with several robberies, according to information received by authorities here.

SUES FOR CASH DUE FROM N.P.L.

A. H. Gallagher Brings Action to Recover for Organization Work

Fargo, March 23.—Nonpartisan league leaders, in convention here today were to be served with papers in the first of several suits which former organizers and county managers of the league are preparing to bring.

A. H. Gallagher, who is employed in the office of the land commissioner, demands immediate payment of \$1,236 which he alleges is due him as salary and commission in organization work in the league. He alleges that there is one note for \$500, now past due, given to him by George Totten, Jr., former secretary of the league; a check for \$100 given by Totten on the Scandinavian-American bank of Fargo returned marked "no funds," and that there is due him \$636 additional.

The North Dakota branch of the league, members of the state committee as individuals, the state committee as such, George Totten, Jr., Ray Craig, former manager of the league, P. L. Arrhus, agent of the committee and Fred Argass, Burlington county representative, are named as defendants.

It is understood others will start similar suits.

MILWAUKEE IS LAYING IN COAL

Milwaukee, N. D., March 23.—The Milwaukee railroad is unloading and storing about 5,000 tons of coal in the railroad yards here as a precautionary measure against the nation-wide coal strike called for April 1. D. J. Frank of Spokane has the contract for unloading the coal and he is employing about 20 men. Coal heavers are being paid 12 1/2 cents a ton and the average man is able to make about \$3 a day.

PROBE STARTED OF TAMPERING IN MILL OFFICE

Attorney General Investigates Substitution of New Books For Original Records

McGOVERN IS CALLED

Explanation Demanded of Former Manager—Features of Mill Report Detailed

Investigation is now under way by the Attorney-General's office of the rewriting of records of the Mill and Elevator Association under the management of J. A. McGovern, it became known today.

First steps in an effort to determine the reason for destroying the original records were taken sometime ago and the report of the Bishop-Brissman Audit company, submitted this week, is a further basis for the investigation. Attorney-General Johnson, asked today if any action would be taken as a result of the Bishop-Brissman report, said that the matter is being investigated.

Effort was made to clear up the situation before the Bishop-Brissman company began its audit of the state industries under the new administration, it was learned. Demand was made upon Mr. McGovern by Secretary Crawford of the commission for an explanation of the rewriting of records, for the production of original vouchers and other records and for an explanation of the great amount of expense in mileage incurred by the Fargo office of the Mill and Elevator Association. Mr. McGovern, according to Secretary Crawford, has failed to make any explanation of the matter.

The Bishop-Brissman report quotes the former bookkeeper for the Mill and Elevator Association, as stating that the records now on file were written up by the Equitable Audit Company. The original records installed in July, 1919, are not on file in the office of the Industrial Commission and effort to find them has been unsuccessful. There are no original vouchers on file, according to Secretary Crawford. The audit company report also quotes A. W. Leuhns, former secretary to McGovern, as saying that records were purchased in 1919 and that transactions were entered thereon by him, but these cannot be found. Records of the Mill and Elevator Association were first in controversy in December, 1920, when the Bishop-Brissman auditors attempted to get them but were told they had been removed from the Fargo office.

An overdraft of \$31,478.08 by the Mill and Elevator Association was reported by the Bishop-Brissman company auditors who have just reported on their survey of the mill and elevator association. The report says: "Up to December 31, 1920, one account was maintained by the Bank of North Dakota, receiving deposits and honoring withdrawals of all three offices, Grand Forks, Fargo and Drake. January 1, 1921, two accounts were maintained by the Bank, one for Grand Forks and another for Drake. Apparently no attempt had been made to harmonize the bank balance with the bank. The Grand Forks records show the bank account to be overdrawn \$30,287.66, with no provision made for bank withdrawals by the Fargo office amounting to \$13,494.97. The correct overdraft is \$31,478.09.

The expenses incurred in the Grand Forks mill and elevator project which according to the audit, represent a loss because there is no physical value shown for it, includes: Interest, Bank of North Dakota, \$64,021.53; Interest Strong Scott Co., Pawling Harnischfeger Co., Grand Forks Commercial club, bonds retired, \$27,410.72; salaries (Continued on Page 7)

FLYING BOAT IS MISSING

Miami, Fla., March 23.—Airplanes returning today from their search for the flying boat Miss Miami, reported they had found no trace of the missing craft which with five passengers left this port yesterday for Bemini yesterday.

BONDS SOLD TO STATE ARE VOID

Glenburn, N. D., March 23.—The Glenburn school board has taken steps to call another election upon the question of issuing \$25,500 of six per cent bonds to be offered to private investors. Bonds voted "yes" were contracted for sale to the state, but the deal had to be cancelled owing to the lack of state funds. Teachers have been offered their positions for another year, with the proviso that they hold certificates meeting the requirements of whatever classification the Glenburn school may be given next year by the state high school examiner.

EASTERN FINANCIERS COME TO STATE TO STUDY INVESTMENT POSSIBILITIES

Eyes of eastern financiers are turned toward North Dakota.

Five representatives of leading financial institutions of New York were expected in Bismarck today to seek a conference with Governor Nestos and other state officials, regarding possibilities of investment in North Dakota. A representative of a group of Chicago and Cincinnati bond houses will be here within two or three days, it was learned.

The financial men, it is understood, want to canvass the entire financial situation in the state. Their visit is understood to follow efforts upon the part of Governor Nestos to create a demand in the east for all kinds of North Dakota

government securities. State officials looked forward to the establishment not only of a market for the further sale of state bonds but for the bonds and warrants of every county, municipality and other political sub-division of the state.

North Dakota's resources have been little appreciated in some quarters of the east, in the belief of state officials. Statistics were prepared to show them that North Dakota offers one of the most promising fields of investment in the country. Creation of a strong eastern market should tend to reduce interest charges on bonds sales of counties, cities, etc., the state officials believe.

GOVERNOR AND MAYOR WELCOME MARY WITH KISS

Portland, Ore., March 23.—Mary Garden, head of the Chicago Opera company, says Portland is the first city in which she has been welcomed with kisses from both the Governor and the Mayor.

When Miss Garden appeared before Mayor George Baker, he rushed forward and kissed her. Governor Ben Olcott, next in line, looked a little doubtful. "Go on, Governor, you're next," yelled the crowd and the Governor did.

Miss Garden burst into tears, but soon explained they were tears of joy.

FINAL DEBATE ON TREATIES

Predicted They Will Be Ratified Soon

Washington, March 23.—What was thought to be the final forensic battle over the four-power treaty began in the senate today, with the administration leaders holding their lines intact against the onslaught of the irreconcilables and predicting that ratification would be voted tomorrow with no reservations except that approved by the foreign relations committee and accepted by President Harding.

Enough votes were pledged, the leaders said, to reject all other proposed reservations and amendments and to insure the necessary two-thirds majority for final ratification. The ratification vote is to be taken at the outset of tomorrow's session, under the unanimous consent and agreement which limited debate today to one hour.

SEEK HARMONY IN CO-OP BODY

Committee Named to Compose Differences of U. S. Grain Growers

Chicago, March 23.—Composition of differences between administration and anti-administration factions was the task today of a committee of 11 delegates to the annual convention of the U. S. Grain Growers, Inc. If a compromise is effected today the election of directors will follow.

Reports from the committee indicated that there might be a clean sweep of the present directors and an entire new board elected which would work in harmony. The principal point at issue is the pooling policy of the organization.

CRESS OUT TO CRUSH BARBERRY

St. Paul, March 23.—Crews will be put into the field by the federal and state department of agriculture to dig out and eradicate barberry bushes in every county in Minnesota this summer which has not been covered. It was decided at a conference of federal and state barberry eradication experts today.

SUBMARINE LOST, ALL HANDS DIE

London, March 23.—(By the Associated Press.)—The British submarine H-42 has been lost with all hands in the Mediterranean, says an Exchange Telegraph dispatch from Gibraltar today. She collided with a destroyer during maneuvers.

FOUR BROTHERS BEATING WAY

Four brothers, all above 60 years of age "bummed" into Bismarck on a Northern Pacific train and slept overnight in the police station. They gave their names and ages as B. F. Bangleave, 66; J. W. 63; L. E. and F. D., each 69. They had been home-staying in Montana and were heading their way east, they said.

AGRICULTURAL SITUATION IS MUCH BETTER

There is a Decided Falling Off in Applications For Loans By Banks

\$21,000,000 FOR NO. DAKOTA

Minneapolis, Minn., March 23.—Financial stability is on the mend," M. O. Grangard, secretary of the War Finance Corporation agricultural loan agency here declared in noting a decided falling off in applications for loans by banks, which in turn would be able to give financial assistance to farmers in need.

"The sharp advance in cattle and hogs in the past 60 days is no doubt due to a large extent to the assistance which the country banks have been able to obtain from the Corporation, in enabling them to carry farmers for their existing indebtedness, relieving them of the necessity of dumping their product on the market, and by so doing, making a congested condition," Mr. Grangard said. "The orderly marketing of cattle and hogs is being reflected in the high prices prevalent at the present time."

A more optimistic feeling is general throughout the northwest as the result of the operations of the Corporation, he said. The presence of the many millions of dollars loaned indirectly to agricultural interests is a stimulus which is now being felt by the business and farming interest of the Northwest, Mr. Grangard added. Meetings of the executive committee of the local agency, one of the largest of the country's 32 central branches of the Corporation, are held daily. During the early winter months, when applications for loans were pouring in from bankers of Minnesota, North and South Dakota, which states are allocated to the local agency, night sessions were necessary to take care of the large volume of requests. Slackening of the demand has eased the work somewhat of the Minneapolis office, Mr. Grangard said.

The Minneapolis committee has approved loans for the three states amounting to more than \$20,000,000, Mr. Grangard declared. He estimates that by July 1, when the Corporation is scheduled to cease making loans, the total will be increased to \$70,000,000. Of the approved amount, Minnesota, bankers received \$12,000,000; South Dakota \$16,000,000, and North Dakota, \$21,000,000.

WINTER WHEAT IS IMPROVING

Washington, March 23.—The condition of winter wheat and other fall sown grain generally continued improved during the week ending Tuesday, the weather bureau says today in its weekly crop report.

The outlook for a good fruit year is promising in most parts of the United States, according to the report.

WEATHER REPORT

For twenty-four hours ending at noon, March 23, 1922.
Temperature at 7 a. m. 28
Highest yesterday 55
Lowest yesterday 29
Lowest last night 28
Precipitation None
Highest wind velocity 20-SW

Weather Forecast
For Bismarck and vicinity: Fair to-night; Friday unsettled, possibly light snow.

For North Dakota: Fair tonight, somewhat colder east portion; Friday unsettled, probably light snow west portion.

Weather Conditions
The low pressure area, noted over the northern Plains States Wednesday, has been forced southeastward to the lower Missouri Valley by a high pressure area which has overspread the upper Missouri Valley and the Canadian Northwest. The temperature has fallen considerably over the latter sections, reaching zero over northern Alberta and Saskatchewan. The weather has been generally fair during the past 24 hours in all sections.

ORRIS W. ROBERTS,
Meteorologist.

NEW DEAL WILL BE DEMAND OF MANY LEAGUERS

Townley Said to Favor Move to Eliminate Himself and Chairman Liederbach

WANT THE COURIER-NEWS

Fight For Control of Newspaper Uppermost in Preliminaries of Convention

Fargo, March 23.—Control of the Nonpartisan league will rest firmly with the farmers of North Dakota, declared A. A. Liederbach, chairman of the executive committee of the league, before he called the annual convention session of the league to order here today. "The same sentiment was echoed by many of the delegates and on-lookers at the statewide conference of league members. There was wide difference of opinion as to methods by which this control might be attained, however.

Elimination of both A. C. Townley and the executive committee from power in league affairs was freely discussed in the preliminary convention gossip. This attitude was openly expressed in a closed meeting of league members last night when one speaker advocated "getting rid of all trouble-makers." The plan proposed by the men backing this idea is to put the Courier-News in the hands of a committee and to elect a committee that, while not taking the place of the executive committee, will have control of the policies of the league.

Townley in Favor

"I am in favor of such a move," said A. C. Townley. Chairman Liederbach did not look upon the plan with such outspoken favor being inclined to fear the move as being Mr. Townley's. The rank and file of the delegates as questioned seemed to favor the plan but the leadership of the forces which would line up for it on the floor of the convention was not in evidence.

The balance of power plan apparently will not come before the convention. Less than five per cent of the delegates are in favor of it, according to Chairman Liederbach. Mr. Townley's only comment was that he might have something to say before the convention adjourned.

Delegates are almost a unit in declaring themselves against it although one delegate is reported to have championed it in the meeting last night.

Gronna Men Active

Interest centers in the fight for the control of the Courier-News, league organ here, and booms for any one candidate are receiving little attention.

Activity in favor of A. J. Gronna was in evidence but these were countered by an incipient boom for Lynn J. Frazier. Mr. Frazier was not present in preliminary conference in hotel lobbies.

Langer Present

Talk of elimination of former leaders of the league led to discussion of the name of R. B. Griffith, of Grand Forks, as a candidate for governor and the names of Senator B. F. Baker and F. W. Cathro, former head of the Bank of North Dakota. William Langer, former attorney general, was actively at work in the lobby but centered his energies only in the interest of supreme court candidates.

The afternoon session contained itself with the work of organization, appointment of committees and other preliminaries and the actual work of the convention is expected to be completed at a night session.

"DRY" CHIEFS ARE APPOINTED

Washington, March 23.—Appointment of division chiefs and designation of headquarters for eighteen new general prohibition territories throughout the country, were announced today by Commissioner Haynes.

They include Minneapolis, for Minnesota; North and South Dakota, Iowa and Nebraska, E. Hunt.

PENWARDEN TO BE CANDIDATE

Richard Penwarden, register of deeds, has announced he will be a candidate for re-election at the primary. Mr. Penwarden is completing his first term in this office.

2,700 Acre Hettinger Farm Is Sold

Mott, N. D., March 23.—A. P. Hendrickson, of Phoenix, Ariz., widely known in this section from his annual visits, has sold his real estate holdings here. Hendrickson's holdings comprise 2,700 acres, to C. Wilbur White of Chicago. Mr. Hendrickson, a Civil war veteran bought the property in 1905, and has since superintended farming operations every year. Mr. and Mrs. Hendrickson took much interest in the development of this section. Mrs. Hendrickson founded the public library here and contributed hundreds of books as well as cash.

LIGNITE MINES CAN SUPPLY ALL COAL NECESSARY

Operators Claim That Non-union Miners Could Fill Needs in Event of a Strike

The threatened coal strike April 1 will have little effect upon the supply of lignite coal in North Dakota, in the opinion of several operators in this section.

It is said that there are but two or three mines of any consequence that are known as "union mines," while probably 15 mines, large and small, are operated on an "open shop" basis at this time. This same situation is said to apply to mines in Northwestern North Dakota. Two mines west of the Missouri river, which had been operated on a union basis are understood to have shut down recently.

"Trade is tight at this time of the year," said Walter McCumber, of the Washburn Lignite Coal company, Wilton today, "and the mines working on a non-union business could produce all the coal necessary in this section."

Mr. McCumber said he knew of but two, and possibly one other, mines of consequence that are union mines.

The biggest union mines are understood to be the Washburn Lignite Coal company's Wilton mine and a mine at Burlington. About 200 men would be thrown out of work at Wilton if they accept the strike order.

AGENTS HOLD MEETING HERE

Conference of County Agent Leaders on March 24

County agents from nine southwestern counties of the state will hold a conference at Bismarck Friday, March 24, according to an announcement received from J. W. Haw, of the Agricultural college, state county agent leader.

The purpose of the conference is to afford the agents an opportunity to get together and plan their programs of work for 1922, particularly their demonstration work. These demonstrations consist of trials by farmers of practices recommended by the State Agricultural college, so that the local value of these practices can be determined and witnessed, not only by the farmer himself, but also by his neighbors.

Demonstrations planned for the coming year include methods of growing sweet clover, alfalfa, millet, broom grass and corn; methods of feeding livestock; problems of production and marketing of potatoes; problems of sanitation and hygiene; problems of fertilizing and cultivating; care and management of poultry.

The meeting will open at 3 p. m., at the McKenzie hotel and the following county agents will be in attendance: H. O. Sauer, Linton; J. C. Russell, Beach; G. C. Fox, Bismarck; A. L. Norling, Washburn; R. C. Newcomer, Carson; G. H. Ilse, Mandan; Chas. E. Easgate, Amdon; H. S. Bacheller, Mott; and R. E. Arnold, Steele.

GERMAN ENVOY TO U. S. NAMED

Berlin, March 22.—(By Associated Press.)—Dr. Otto Ludwig Weidfeldt has been appointed German ambassador to the United States.

Dr. Weidfeldt will fill the post which has been vacant since February, 1917, when Count von Bernstorff left Washington.

MUST SERVE ONE YEAR.

Stanley, N. D., March 22.—J. H. Iverson, alias E. S. Swenson, who escaped from the Mountrail county jail in 1917, and who has just been returned from Canada, where he was taken into custody, will be taken to Bismarck to serve a one-year sentence in the state penitentiary. Iverson was charged with embezzlement of funds belonging to the Great Northern railway in 1917. He was then agent at Roseau, N. D. He pleaded guilty to the charge and was sentenced to one year in the state penitentiary, but managed to make his escape from the county jail before he could be taken to state prison.

Bilious Folks Returns to Meals

Magical Effects of Stuart's Dyspepsia Tablets in Dispelling the Gloom of Coated Tongue Dyspepsia.

Many a poor, misguided dyspeptic is lamenting about his hard luck when

all he needs is a 60 cent box of Stuart's Dyspepsia Tablets to be had at any drug store. They settle and sweeten a sour stomach, offset acidity, dispel gasiness, induce digestion, relieve biliousness, clear the coating from the tongue, repair the bad breath and enable the most desperately gloomy dyspeptic to get back into the land of the living. Get these tablets today and experience all this.

CELLS FILLED, DODGE CAN'T GET COMFORT, EVEN IN JAIL

John Duval Dodge, millionaire prisoner, snapped as he left his cell in Detroit House of Correction for a trip to court.

Detroit, March 22.—(By NEA Service.)—The assortment of "drunk and disorderlies," thieves and petty criminals in the Detroit House of Correction are feeling up in the world!

Because they're occupying the same quarters with a millionaire.

The millionaire prisoner is John Duval Dodge, son of John Dodge, one of the brothers who founded the auto plant that bears their name.

Young Dodge, who has \$1,500,000 in his own name, is spending five days in the house of correction under a sentence Judge Charles L. Bartlett imposed on him for speeding.

The young millionaire drove to the court in a costly limousine.

"But he didn't go back home in it," he went through the tunnel leading from the court room to the House of Correction.

There an official asked him the routine questions put to any new prisoner.

Occupation? None.

"What's your occupation?" was the first question.

"None!" the millionaire answered.

Then the official issued to Dodge a gray checked shirt, gray trousers and a coat—his prison uniform.

Dodge is wearing them now.

Dodge sleeps in a corridor, where 49 other prisoners are quartered. The millionaire can't have the luxury of a cell because they're all filled.

A pillow and a blanket comprise his bedding. No sheets.

Dodge has to rise in time to eat breakfast at 6:30 a. m. His breakfast consists of rice, milk, bread and coffee.

The only special privilege Dodge has enjoyed so far was permission to take a shower bath when he entered the jail.

"But I'm sleeping well," Dodge says. "A fellow has to be a good sport sometimes, you know."

POTATO STOCKS ARE ESTIMATED

North Dakota Placed Among Big Producing States

Washington, Mar. 22.—Stocks of potatoes in the hands of farmers and local dealers March 1 in the fifteen leading potato states are estimated at \$9,946,000 bushels by the Department of Agriculture. Of this quantity, 73,486,000 bushels were held by farmers and 17,460,000 bushels by local dealers.

Of the holding in the hands of the producers, 30,900,000 are expected to move off the farm, and 42,586,000 to be retained.

The states covered include North Dakota.

QUICK ACTION OF POLICE CAUSES RETURN OF GOODS

Minot, N. D., March 22.—Two hours after the police were notified that the City Grocery, at Second street and Third avenue southwest, and the W. M. Smart office had been broken into and robbed they had all the loot in their possession.

About \$5 in pennies was taken from the grocery store till, but no groceries or other merchandise was taken, it is stated. Entrance was gained through a back door and the thief made his way into the basement and then up into the store.

Entrance into the W. M. Smart office was gained by climbing over a transom.

Seven tires, valued at about \$140, were stolen. These were recovered safely, as also was the money.

The police state that they found the loot in a house in the southwest section of the city.

MASONS HOLD SCHOOL HERE

Thirty officers of the Masonic lodge attended a school of instruction held here yesterday afternoon and last night, under the direction of District Deputy L. K. Thompson, Grand Lecturer Boyden conducted the school.

In addition to the officers present from the lodges of this district there also were officers from the Washburn lodge. Dinner was held at the Elks club and a luncheon was served by the Eastern Star later.

NEW CLUB WORK GOING AHEAD

Organizers of the Association of Commerce are completing their detailed work of organization, and are in correspondence with several men known as specialists in community organizing and development. It was stated yesterday that they are working toward the selection of a trained worker for the organization. It was said, having guarantees by a number of citizens that will insure its financial success.

Fined \$200.

Russell Bryan, found guilty by a federal court jury of violation of the Volstead act, was fined \$200 by Judge Miller yesterday afternoon.

BRITISH WILL PAY WAR DEBT

London, March 22.—(By the Associated Press.)—Sir Robert Horn, chancellor of the exchequer, discussing the British debt in the house of commons said:

"I do not propose to make any conditions to the American government as to the payment of due obligations."

LOYD GEORGE TO ASK VOTE

Premier Will Demand Confidence in His Attitude

London, March 22.—(By the A. P.)—Prime Minister Lloyd George will resume his place in the house of commons April 4 and will immediately ask a vote on the government policy regarding the Genoa economic conference. Austin Chamberlain, the government leader, announced in the house this afternoon.

Mr. Chamberlain added that Mr. Lloyd George declined to put the question as to whether it possessed the confidence of the house.

The whole house, he said, will recognize that it will be impossible to ask the premier to go to Genoa if there were any doubt about his authority.

CLUB LUNCHEON WILL BE HELD

New directors of the Commercial club will outline policies for the ensuing year of the organization at an Open Forum luncheon to be held Thursday noon at the Grand Pacific hotel. E. B. Cox is president of the club and other directors are J. C. Anderson, R. W. Lumry, W. E. Perry and Carl Nelson.

Plans for a campaign for funds and other matters will be laid before the board.

REQUIREMENT ON BORROWERS

The farm loan department of the Bank of North Dakota does not require the borrower to reside upon the land offered as security, Manager DeNault said today in clearing up a misunderstanding. He said the department required that the borrower be an actual farmer living on farm land offered as security or upon adjacent

ICE BREAKS AT PIERRE, REPORT TO U. S. BUREAU

Gradual Increase in Stage Noted At Bismarck in the Last Several Days

Ice has broken in the Missouri river at Pierre, South Dakota, according to information received by the weather bureau. This is held to mitigate against a flood in this section of the state. Floods often are caused by the river breaking at northern points before it breaks at points farther south.

The following resume of conditions was issued by the weather bureau for the general information of the public:

The ice in the Missouri river broke at Sioux City on March 13th; at Elk Point (S. D.) and Yankton on the 15th; at Chamberlain on the 16th and at Pierre on the 17th. The river is reported frozen over except in occasional spots from Pierre to the North Dakota line. The river is practically closed at all points in North Dakota. At Williston yesterday the water was

DENIES MOTION FOR ARBUCKLE

San Francisco, March 22.—Judge Harold Louderback denied yesterday the prosecution's motion to be allowed to challenge peremptorily Juror Edward Brown in the third manslaughter trial of Roscoe Arbuckle. The juror was sworn in last week. The motion was made yesterday on the ground that Brown was hostile to the district attorney.

POOLING ISSUE IS UP TODAY

Chicago, March 22.—Expressions as to the future policy of pooling crops produced by the U. S. Grain Growers, Inc., are expected at the annual convention of that organization late today. Convention delegates predict that the pooling policy will be the chief issue when new directors are elected. The present board is reported to be almost equally divided.

Motor Lubricants for 30 Million People

REFINING crude petroleum to produce a multiplicity of useful products is a highly specialized branch of industry.

The refining of gasoline and the manufacture of lubricating oils each require special treatment. Motor lubricants are made from specially selected crude and the portions of such crude best adapted for high quality motor oils are extracted during the first operations of refining.

The Standard Oil Company (Indiana) is proud of its achievements; proud of its enviable record as a manufacturer of gasoline, and equally proud of its record as a manufacturer of lubricants for all types and classes of machinery.

During 1921 nearly 25 million gallons of Polarine, the perfect motor oil, were manufactured and sold.

This enormous gallonage went to the consumer with the unqualified guarantee of the Standard Oil Company (Indiana) that no better lubricant for an internal combustion engine could be made.

Lubricating oil is the most vital factor in conserving your car investment. In making definite recommendations for lubricating your car this Company realizes the importance to you, and to itself, of knowing exactly what each machine requires.

The responsibility of the Standard Oil Company (Indiana) is emphasized when you consider that in the territory served there are more than 3 million automotive vehicles under registration. These machines represent a total investment of more than 2 billion dollars.

Every drop of motor oil manufactured by the Standard Oil Company (Indiana) is made to meet definite requirements worked out in the Company's laboratories by skilled chemists, refiners and lubricating engineers who have given careful study to the technical problems and their practical application under working conditions, which the oil must meet.

It is because they have given such painstaking attention to every detail of manufacture and application that the Company has been able to produce Polarine, the perfect motor oil.

It is this painstaking attention to every detail, in every branch of its business, that has made this Company a leader in the industry. It is by such sustained, conscientious, enthusiastic effort, to keep faith with its patrons, that this Company has won the confidence, esteem and respect of the public it serves.

OLD HOME OF DANIEL BOONE GOING TO RUIN

Until Two Years Ago, The 192-Year-Old House Was Tenanted

FARM IS WORTH \$15,000.00

Reading, Pa., March 23.—Deteriorated by the elements it has withstood for 192 years, the stone house in the foothills of Exeter township, Berks county, where Daniel Boone, the Kentucky pioneer, was born, is slowly falling to ruin from lack of care. Until two years ago the house had been tenanted and the necessary repairs made, but now it is deserted, the cellar full of water, windows broken, floors decaying and the 160 acres of estate are uncared for.

The farm is situated about one and a half miles from Stonersville. The lane leading to the premises is marked by a large white rock placed by the Historical Society of Berks county, on which is the inscription: "One quarter mile to the birthplace of Daniel Boone, Oct. 2, 1733."

In this connection it may be said that some authorities give the date of his birth as 1734 and 1735, and his birthplace Bucks county, Pennsylvania.

According to history Boone stayed here until he was 17 years of age, when he went to Kentucky. Tradition has it that it was nearby that he killed his first bear when he was 14 years old, and he was so proud of his achievement that he carved an inscription on a tree with his hunting knife, reading: "D. Boone killed a bear near here."

The house has four rooms on the first floor, six on the second and an attic. The original Boone dwelling had two rooms on the first floor and three on the second, but an addition similar to the original in every respect was made after the family migrated.

One of the original rooms contains a large fireplace made of stones and still in good condition. Here it was on the mantelpiece, according to tradition, that young Boone carved a notch indicating his height when he went to Kentucky, and upon his return in middle age was interested to see how much he had grown. However, the historic notch cannot be discovered on the mantle piece.

The shutters and doors of the dwelling are hung on wrought iron hinges and still are in good condition, but many of the windows are broken, permitting rain and snow to enter and causing the floor to decay.

Efforts have been made to have the state purchase the house where the pioneer was born, and still more recently, there have been reports that the Historical Society of Clarke County, Ky., has interested itself in the possible purchase of the farm for historical purposes. The farm is valued at \$15,000 according to late estimates.

NOTICE OF CITATION, HEARING OF AMENDED FINAL ACCOUNT AND DISTRIBUTION. In County Court, County of Burleigh, Before Hon. L. C. Davies, Judge.

In the matter of the estate of John P. Nelson, Deceased.

Fred C. Nelson, Petitioner, vs. Walter W. Kirkey, Henry Anderson, Alfred Anderson, Ada Anderson, Elsie Anderson, Freda Anderson, Andrew Anderson as Special Guardian, Earnest Swenson, Lillian Swenson and..... Swenson, minor children of Ellen Swenson nee Johnson, Deceased, and V. E. Parsons, Special Guardian, Respondents.

The State of North Dakota to the Above Named Respondents: You, the said Respondents, are hereby notified that the amended final account of the Administrator of the Estate of John P. Nelson, late of the township of Painted Woods, in the County of Burleigh and State of North Dakota, Deceased, has been rendered to this Court, therein showing that the estate of said deceased is ready for final settlement and distribution, and petitioning that the account be allowed, the residue of said estate be distributed to the persons thereto entitled, his administration closed and he be discharged; that Tuesday, the 25th day of April, A. D. 1922, at ten o'clock in the forenoon of that day at the court-rooms of this Court in the court house, in the City of Bismarck, County of Burleigh and State of North Dakota, has been duly appointed by this Court for the settlement thereof, at which time and place any person interested in said estate may appear and file his exceptions, in writing, to said account and petition and contest the same.

And you, the above named respondents, and each of you, are hereby cited and required then and there to be and appear before this Court, and show cause, if any you have, why said account shall not be allowed, the residue of said estate distributed, the administration of said estate closed and said Fred C. Nelson, Administrator, be discharged.

Dated the 23rd day of March, 1922.

(Seal) By the Court, C. DAVIES, Judge of the County Court.

Let the foregoing citation be served by publication in the Bismarck Daily Tribune, once a week for four successive weeks.

(Seal) I, C. DAVIES, Judge of the County Court.

STATE ENDEAVOR TO MEET HERE EARLY IN MAY

Plans are being made for the annual meeting of the Christian Endeavor society of North Dakota, in Bismarck, on May 5, 6, and 7. It was announced today that among the leaders at the conference would be: E. P. Gates, general secretary, of Boston, Mass.; C. E. Hetzler, of West Virginia, field secretary who will be in the state from April 3 to May 4; Governor Neslos and Rev. W. A. Boyd, of Jamestown college. F. C. Grady said today that an exceptionally strong program is being prepared.

HAIL INSURANCE DEPT. IS BUSY

Sending Out Many Blanks To Be Used in 1922 Season

Workers in the office of the Hail Insurance Department have just finished sending out to the assessors and the county auditors of North Dakota the supplies necessary for the reports sent to the Hail Insurance department for the year. Seven tons of paper were handled making up the different packages and some of the individual blanks, sent out numbered into the millions. One blank alone was used which called for the printing of 1,200,000 copies.

That North Dakota's hail insurance business is in a class by itself as far as volume is concerned is indicated by Mr. Hagen in showing that the private and old line companies collected for premiums somewhere between eight and nine million dollars for 1921. This is a drop of fifty per cent from the year preceding. For this year North Dakota collected in premiums about two thirds this amount or somewhere around six million dollars. The actual premiums were added to for the year by the three cent flat tax.

One of the methods of doing business in the Hail Insurance department has received the approval of the Attorney General's department, in one of the points not yet covered by the opinion of the supreme court. Mr. Hagen asked the department to make a ruling on the point of the interest involved where a farm is sold and this sale divides the actual interest in the crop on the farm. The attorney general ruled that the previous practice of the Hail Department of writing a separate warrant for each interest involved followed the law and this interpretation will be followed until points in some particular case are presented to the supreme court. The department is not expecting to make a test case of this, but does expect it will come up some time in the usual routine of their business.

The shutters and doors of the dwelling are hung on wrought iron hinges and still are in good condition, but many of the windows are broken, permitting rain and snow to enter and causing the floor to decay.

EXPLOSION CAUSE OF \$50,000 FIRE

Turtle Lake, N. D., March 23.—Fire which followed the explosion of a gas oil stove which Mrs. O. L. Foster was endeavoring to light, resulted in the destruction of the Foster home and the general stores of A. A. Haas.

& Son, and Andrew Froehlich. Practically all of the contents of the three buildings were destroyed together with a small building housing the offices and library of Atty. C. L. Foster. The loss is estimated at \$50,000, partly covered by insurance. Mrs. Foster was seriously burned by the gasoline explosion.

COMMERCE CLUB TO CANVASS FOR FUNDS FOR YEAR

New Directors Are Present—No Change in Secretary's Position Now

New officers of the Commercial club made their bow to the club at an Open Forum luncheon held this noon at the Grand Pacific hotel. E. B. Cox, president of the organization, opened the meeting by accepting responsibilities imposed upon the new directors in their behalf, and promising best efforts of the officers.

C. L. Young, former president, spoke of the history of the New York Commerce club, the oldest commercial organization of its kind in the country and the work of the local club. He spoke particularly of the work of this organization during the periods of national emergency, and told of its efforts in steadying the country during periods of financial stress at the time of great national conflicts.

Mr. Cox discussed the situation frankly regarding the Commercial club and business men of the city. He said the new directors had not formulated their program as yet. He said with reference to the office of Secretary of the club that the officer felt they should not make any change now in the position held by Mr. Keniston. A campaign for funds will be made beginning tomorrow, he said. Teams will start out at 9 a. m.

THE MOVING FINGER WRITES

It is always interesting to observe the effect of custom on the habits of people of different countries. For example, among the Latin races, women have been slow to take up business, whereas the bulk of stenographic work among Anglo-Saxons is now performed by women. It is not generally considered fitting that a girl of good breeding should find such an occupation in some of the more conservative countries.

It is safe to say Corona, the Personal Writing Machine has been an important factor in bringing about the new order of things, for it is hard to believe that personages like H. H. Princess Marie Louise, H. H. Princess Arthur of Connaught, Lady Muriel Paget, and Her Grace the Duchess of Norfolk would care to use the ordinary type of office machine.

As the habit of Coronatyping has grown among the leaders of the gentile sex, wonderful new opportunities have opened up for them. They have learned to handle their private business affairs in an up-to-date business manner; their social work has increased in efficiency; they have commanded respect in politics and have often come

Fargo will be shown. The admission is free.

To Speak at Meeting R. E. Jones will speak May 27 at a meeting of New York Life Insurance company agents in St. Paul. Agents will be present from Minnesota, North and South Dakota, Wisconsin and Manitoba.

WOULD CRUSH KU KLUX KLAN

Baton Rouge, La., March 23.—Governor Parker issued today an appeal to the law officers of Louisiana to suppress "with an iron hand" the evil of "Ku Kluxism," wherever it raises its head.

He said this action had been taken in view of the repeated complaints which had come to him.

CHANGE FADS.

Knitting needles and yarns have been changed for brocades and thim-

to the assistance of their husbands.

Lady Drummond Fraser, for example, wife of the prominent financial expert, now in America, is an expert coronatypist and acts as private secretary to her husband.

"After the loss of my two sons in the war," said Lady Fraser, in an interview with a representative of the San Francisco Chronicle, "I simply had to do something to occupy my mind and someone suggested typewriting. So I purchased a Corona and now am proud to say typewriting is one of my accomplishments. I learned all by myself and I don't use the 'munt and peck' system, either."

Incidentally, while demonstrating Corona, last Saturday to Mr. A. O. Johnson of Bismarck, who is now the proud possessor of one of these little machines, a small boy heard Mr. Sherwood say, "Fold it up, take it with you, typewrite anywhere," slapping two times on the table the youngster exclaimed, "I'll take it!"

Mr. Sherwood explained that twenty cents was not quite enough. "Well, how much do you want, five thousand dollars?" asked the boy. "No," said Mr. Sherwood, "but it is worth it!"

bles, for this year one's every other woman friend is fashioning a bit of handsome brocade into a bag or a pouch, lining it with contrasting silk and not forgetting the gold lace edges which give it such an air of luxury.

ADD CARROTS.

Add a few carrots to the bean soup. It adds to the nourishment and gives the soup a pleasant flavor.

NOODLES.

The Chinese way of cooking noodles is to fry them in peanut oil and drain them on blotting paper.

SNIPERS BUSY ON ERIN BORDER

Reported They Are Using Light Machine Guns

Belfast, March 23.—Reports that the snipers on the southern side of

the Ulster border were using light machine guns against the reconnoitering parties reached Belfast today. All day yesterday the snipers were active with their rifles, firing until a late hour in one sector.

In Belfast two Class A. special constables were fatally shot at noon by a band, the members of which escaped.

ROOM—With board at "the Mohawk" 401 5th st. 3-23-22

Why the Commercial Club?

Because—It is the one big organization through which the individual may work and make his ideas for the improvement of the city into deeds.

Because—Through the united activity of the individual working to the best interests of all, it becomes the principal business asset of the community.

Because—It creates a community-of-interest spirit not possible through any other organization.

Because—Of its value to the community—serve it. Assume the work you are best suited to do and do it cheerfully. Improve it by offering your suggestions and advice. Help guide it by making your criticisms at meetings and not on the outside.

Because of its importance, and gather new ideas.

Because of all this—not only pay your dues promptly but "spend" yourself in aiding through the Commercial Club to make your town a better place in which to live and do business.

—F. L. CONKLIN, Secretary.

There are three things that every Commercial Club should endeavor to be: First, a general clearing-house for information concerning the city. Second, a stimulator of business and social activities. Third, the guardian of the general business welfare, especially as to freight rates, credit information, fake promotions, and the like.

I believe the Bismarck Commercial Club is a good organization whose record of accomplishments heretofore merits our support for the future.

—R. W. LUMRY.

Some members seem to have the impression that the title Commercial Club infers that there are some social privileges attached to its membership and occasionally one hears a member say, "I never get time to go up there." The inference being that some are keeping more benefit than others. The fact is those who use the Club rooms use them for the Club's benefit. They come to the Club with a suggestion for its activity or to participate in some matter already set in motion. Your Club dues are used to pay rent, salaries, and miscellaneous office expenses. Come up once in a while and satisfy yourself that it is worth while.

—H. J. DUEMELAND.

Bismarck has all the potential possibilities of a really great city. Time and patience coupled with determined, unselfish effort will produce the desired result.

—F. A. LAHR.

You may ask what business has a Commercial Club to perform such a service for its members. The answer is this: As an association of business men, we are better equipped to do this work for our members than they are themselves. We have a central office and can serve all in an equitable manner, keeping the list constantly in the best condition. Furthermore, we are helping to build a bigger and better city. You will always find a successful retailer among the enthusiastic boosters.

—P. J. MEYER.

The Commercial Club is the business man's agent through which he expresses his opinion on the public welfare. It offers at the same time, a practical and enlightened method for reaching a correct opinion. Through committee meetings, with their discussions, assembling of pertinent data, and frequent introduction of testimony from experts and specialists invited to appear before the committees, a sound procedure is provided for reaching correct conclusions. The individual, working alone, cannot attain such a high average of sound opinions as will be possible when his efforts are assisted by active membership in a Commercial Club. Thus a Commercial Club provides a local clearing house for the crystallization of well-thought-out community opinion on subjects of local, state and national scope.

—OBRIEN BROS., Of Minute Lunch.

"The work of a Commercial Club," to quote the words of a former Secretary of the New York Chamber, "is not to destroy competition, like a monopoly or a trades union. It does not attempt to manipulate prices, pool earnings, fix wages or establish artificial barriers to prevent anyone from entering a market or a trade. On the other hand, it develops a spirit of fair play. It establishes, as it were, the rules of the game and often acts as umpire when disputes arise. It does something more. While merchants may eagerly compete for business, yet they have, even as competitors, certain large interests in common, so that in the Commercial Club they are competitors meeting together and working together on committees for certain objects which they all desire."

—BURT FINNEY.

The citizen who grows about his town being the "worst ever" is assisting in its burial. The business man who will not advertise is driving the hearse. The citizen who is a chronic grumbler and always pulling back in every public enterprise is throwing bouquets on the grave. The citizen who "knocks" and howls "hard times" preaches the funeral service.

—E. B. KLEIN.

It's a funny thing. The same people who oppose a public improvement will eventually boast of it the loudest.

Your organization is designed to promote thinking along community lines. Too many people think along the lines of their own particular business or job, with no thought to spare for the city.

—FRANK G. GRAMES.

Reason Why a Commercial Club Should Interest Itself in the Farmer: When the great struggle was on over seas, one of the big things was to keep the Allied peoples and the American army fed. Only recently we heard that unless the American farmer is materially assisted, this great nation may have to import foodstuffs. The fundamental industry is not receiving the attention it must have if America is to eat. The power of the Commercial Club can be a tower of help to the agriculturist and there is much it can do and constructively do to keep this splendid producing industry going forward. The farmer's success also means much to the community. Just what is his problem? Where does the Club fit in?

—J. P. FRENCH.

The man who benefits most from the work of a Commercial Club is generally the biggest kicker.

The best man in town is the man who gives his time and money towards making the city better for all to live in.

—J. C. ANDERSON.

No greater truth can be stated than to say that every man's rating as a citizen should be in proportion to his services to the public, whether in private or public effort, or both.

—W. E. PERRY.

The Commercial Club of Bismarck should include everyone who is interested in the welfare and progress of his community.

—N. O. RAMSTAD.

I wish to commend the work done by the Commercial Club during the past year, both for its value to Bismarck as a whole and to each individual member of the organization. While there has been no fireworks and horn-blowing, yet the Club has always been quietly and efficiently on the job for the best interests of the city. It works while most of us sleep and when we wake up, everything seems to be all right, so we say the Club has done nothing. If it were not there while we sleep there would be some rude awakenings for Bismarck's citizens and things would seem sadly out of joint.

—GEORGE WILL.

DAILY PAPERS CARRY BIBLE SELECTION FREE

Service Also Supplied To Papers
In Canada, Hawaii, Alaska
and Virgin Islands

Cincinnati, Ohio, March 23.—Secular newspapers using the service of the Bible Bureau, which has headquarters here, have given without charge over \$50,000 worth of space for the publication of Scripture, according to Addison Y. Reid, secretary of the bureau. "The response from the newspapers is amazing," he says. Mr. Reid reports that the combined circulation of the more than 300 papers using the service exceeds 10,000,000. One of the first large dailies to carry a bible selection free has printed one at the head of its editorial column daily since September 7, 1920, records show. The service also is supplied to papers in Canada, Hawaii, Alaska and the Virgin Islands.

The Bureau, of which James N. Gamble is chairman, supplies editors with clip-sheets bearing passages from the bible under brief captions, for use as a feature. Many editors report that readers have welcomed the passages, according to officials of the Bureau. The organization seeks to reach the public through the secular press, "the only way it can be reached," Mr. Reid asserts.

Representative passages supplied by the Bureau follow:

"The Road to Want: He that oppresseth the poor to increase his riches, and he that giveth to the rich, shall surely come to want.—Proverbs 22:16."

"The Best Medicine: A merry heart doeth good like a medicine; but a broken spirit drieth the bones.—Proverbs 17:22."

ICE CREAM IS COMPOSED OF ONE-HALF AIR

Fargo, N. D., March 23.—Many people like ice cream, but few of them realize that the velvety dessert is one half air, according to Jacob Moyer, food chemist of the Agricultural college. This air is introduced, not to cheat the customer, but to make better ice cream, he explains, and the gelatin which is needed in the process makes the product more digestible—if it's good gelatin.

The department is conducting gelatin tests free of charge for any one who applies with a sample, in an effort to bring about the use of better grades.

The household gelatins are all of fairly good quality, according to Mr. Moyer, but some of the cheaper commercial grades may have a number of things wrong with them, as follows:

Odor. This strongly resembles a glue factory when present and may be detected by pouring hot water on the gelatin.

Lack of standing power. Two per cent by weight in a glass of water should produce a jelly which will permit the glass to be turned upside down, after standing all night. This is where a high grade gelatin proves itself cheaper than the cheap product, because one per cent of the highest grade will produce this effect, while it takes five per cent of the lowest grade. Difference in price ranges from 60 cents to a little more than a dollar a pound.

There are other possible defects, such as presence of too much ash, sulphur, zinc, mercury or yellow coloring matter.

Cass County Sends Handsome "Donation" To State Treasurer

Cass county paid into the State Treasury during February, \$107,406.35 as the state's share of taxes collected during the month, according to the report of County Auditor E. C. Eddy to State Auditor Polinder. This is one of the highest payments yet received at the State Auditor's office. It exceeds the payment of last year by almost \$35,000 the receipts a year ago being \$73,157.27, but is not quite up to the standard set in 1920 when the February payment was \$117,664.31.

Almost three fourths of this money will go to the General Fund of the State Treasurer's office, according to the computation of Ralph Madland, Deputy Auditor. The Soldiers' Bonus fund will receive the other large percentage. The exact payments to the three funds are: General Fund, \$72,451.63; Soldiers Bonus Fund, \$31,777.03 and Bond Interest, Real Estate Taxes \$3,177.70.

The payment of the February taxes, which include the large payment of the year before they become delinquent March 1st, has been of such a nature that the Auditors office force has been busy writing checks, held up for some time because of the financial condition of the State Treasury. While the payment from Cass county was so large as to attract attention, many of the other counties of the state are showing a better percentage of payments than in the past.

To Observe Hale's Birthday April 3

Boston, Mass., March 23.—The centenary of the birth of Edward Everett Hale, author of "A Man Without a Country," will be generally observed Monday, April 3. The Unitarian Laymen's League is arranging a nationwide observance. Dr. Hale honored as a patriot and man of letters, was a Unitarian minister for 65 years, serving a single Boston church for 53 years. From 1903 until his death in 1910 he was chaplain of the United States senate.

"A Man Without a Country," written to strengthen morale during the Civil war, produced a marked and lasting impression. Other short stories by Dr. Hale achieved signal distinction.

CARUSO'S "FIND" IS ON THE WAY TO OPERA STARDOM

Camilla Harrison

BY RUTH ABELING.

New York, March 23.—Camilla Harrison is the "find" of Enrico Caruso. Almost the last thing the artist did before his fatal illness seized him was to predict a future for Camilla and take her to Mme. Gaudenzi for her first lesson.

Caruso with his wife and daughter, were staying at the same hotel in New York at which Camilla and her mother happened to stop. Caruso heard the girl singing. She had not yet had any training.

The great singer called the attention of Mme. Caruso to the girl's voice, saying that she has a natural middle register, which is unusual. The middle register is a sort of bridge between the high voice and the low voice and usually must be developed.

In the course of a few days Mme. Caruso and Camilla's mother met by chance. They talked of Camilla's voice. And the outcome was that one Saturday, just before Christmas of 1920, Caruso took Camilla to Mme. Gaudenzi for her first lesson. He was taken ill a few days later.

The noted singer pronounced Camilla, who was then only 16, a perfect type for light opera and predicted big things in that line for her.

Since the death of her husband Mme. Caruso has kept in touch with Camilla and is urging the girl on to realization of the artist's forecast.

Camilla has just refused an offer to understudy in light opera. She prefers to continue studying until she can begin in stellar roles.

May Robson Scores Here in Delightful Play, Proves That "It Pays to Smile"

May Robson, who appeared at the Auditorium last night in "It Pays to Smile" is a delightful character, gentle, whole-souled and a veritable spring of perennial youth. She is a generous player, too. Many stars who have not won the triumphs of May Robson frequently surround themselves with a cast so poor that their star is costly in the ascendancy. But the entire cast in "It Pays to Smile" was well balanced and well chosen.

The play made a decided hit on the Pacific coast. Perhaps because the story of the play is of Californians and Californian orange groves with a generous sprinkling of the climate boosting native son talk. The play is a decided warning to the effete easterner of what might happen when one takes up residence in the west, for May Robson, as the splinter survivor of a proud Back Bay family melts under the warm sunshine of California and becomes so human that slang is second nature.

He wrote extensively also on historical and Spanish-American topics, and exerted important influence on philanthropic movements. A graduate of Harvard, he was at one time president of Phi Beta Kappa.

Edward Everett Hale was also a newspaper man. As a boy he learned to set type for The Boston Daily Advertiser, which was published by his father, and which he later served in every capacity from reporter to editor-in-chief. During his life he edited religious and literary journals.

Canada's Population Shows Big Increase

Ottawa, Ont., March 23.—Complete census returns show Canada's population to be 8,769,489 as compared with 7,206,643 in 1911, an increase for the ten years of 1,562,846 or nearly 22 per cent, according to final figures announced by the Dominion Bureau of Statistics.

AUTO DEALERS OPTIMISTIC AS SESSION ENDS

Overland and Willys-Knight
Dealers Conclude Session with
Banquet, Theater Party

A dinner and theater party concluded the all-day conference of over 40 dealers in Overland and Willys-Knight automobiles yesterday at the Lahr Motor Sales company, distributors.

During the day the automobile men plunged into a rapid-fire discussion and thorough study of problems affecting their business.

W. E. Lahr presided at the dinner held at the Grand Pacific hotel at 7 o'clock in the evening, and J. L. Bell and G. N. Keulston addressed the dealers.

Mr. Bell spoke briefly upon the financial problems of the world, the rise and fall of business activity in the last three years, pointing out causes and effects of the war and the inflation which followed it. Mr. Bell's conclusion was that business is now on the upgrade, and that the country is slowly but surely recovering its normal balance.

"One man has figured that in the last four months the value of agricultural products has increased \$235,000,000," said Mr. Bell. He pointed to activity in the steel trade and other lines of business. His message, given the dealers from the standpoint of a banker and economist, was decidedly optimistic.

Following the dinner the auto dealers were guests at May Robson's play, "It Pays to Smile," at the auditorium.

MINOT BUSY ON IMMIGRANT PLAN

Minot, N. D., March 23.—Reports from several other communities joining in the drive to get "100,000 more" settlers for northwestern North Dakota, indicate that a fund of at least \$25,000 will be expended on immigration work this year in this section, according to officials of the Minot Association of Commerce, which is handling the secretarial work. The money is being raised by subscription and will be expended by the various local units of the Northwestern Development association recently formed, with a general committee acting in an advisory capacity.

The work is already well launched at various points, reports showing subscriptions being raised, meetings held and literature sent out to prospective settlers.

Will "Intern" Habitual Criminals In Sweden

Stockholm, March 23. (By Associated Press)—Habitual criminals in Sweden would be "interned" until they are cured of their criminal tendencies, under a plan recommended by a special government committee.

The committee has been making an extensive study of the best means of protecting society from such undesirable as well as from degenerated, mentally diseased, epileptics and moral offenders.

It recommends the establishment of special institutions in which to keep habitual criminals until they are restored to normal.

Many Swedish experts favor the committee's plan.

The head of the Swedish prison board further recommended that effective means be taken to prevent all such undesirable from having children. He says this is in line with efforts which have been made in certain parts of the United States. Chief inspectors of hospitals and homes for indigent have sponsored a bill in the Riksdag, which provides that habitual

Former Bismarck Residents Write Popular Music

Herman Monson and M. O. Steen, two North Dakotans, have distinguished their state by their attainments as writers of popular music, according to the March issue of Dakota Fine Arts.

Mr. Monson has written the music and Mr. Steen the words for two popular hits of the season, "Dreamy Isle" and "Fickanny Babe." They are said to be the first musicians in the state to achieve success in the field of popular music.

The two men met at Concordia college, where Mr. Monson was a teacher, and Mr. Steen a student. After the war, in which they both served, they returned to Bismarck, later removing to Minneapolis. They have recently opened their own publishing house, the Monson Publishing company, at 306 Eighth street south, Minneapolis.

Mr. Monson began his musical training in Kindred, N. D. Later he went to Luther college, Decorah, Iowa, where he was made assistant director of the famous Luther band, and with them toured Europe. He spent two years at Concordia college, as instructor in wind and reed instruments and violin, and leader of the college band. During the war he was given charge of one of the bands at Camp Tyler, where he was a lieutenant. Mr. Monson made his home in Bismarck for some time, and has many friends here. He was connected with the Bismarck Conservatory of Music.

Mr. Steen was born at Knox, N. D., educated there in common and high schools, and later at Concordia college. He is a nephew of John Steen, state treasurer.

Rev. E. A. Valient Give Helpful Talk

The young people of the Baptist church and several adults enjoyed a splendid luncheon last night at the church, where Rev. E. A. Valient, of St. Paul, spoke on the coming Baptist Young People's Union of America convention to be held in St. Paul the last of June. Rev. Mr. Valient spoke of the elaborate preparations which are being made by the Twin Cities for entertaining the convention. His particular business is to prepare the states and groups of societies by organizing them with reference to sending delegates.

Rev. Mr. York, of Grand Forks, was scheduled to be here, but owing to inability to be present, only Mr. Valient spoke. The two gentlemen were to compose a "flying squadron" which is to "set up the state."

This is the first time in thirty-one years that the Baptist Young People's Union convention has come to the northwest, Mr. Valient said. Effort is being made in a special way to interest not only the young people of the churches, but the laymen, as well. The intimation of the speaker was that the adults had grown somewhat out of the ways of thinking and acting of the young people, and as a result, were likely to neglect such movements as these for the good of the young people. He insists that there should be more interest shown by adults for the coming convention than usual, since past history of the convention shows that thirteen percent of those attending consecrate themselves to some form of definite Christian work.

War Mothers Plan Patriotic Social

At the regular meeting of the Fort Lincoln chapter of the American War Mothers held at the American Legion hall yesterday afternoon, plans were made for a patriotic social to be held in the American Legion hall on Tuesday, April 18.

The committee in charge of arrangements is Mesdames D. McPhee, W. H. Webb, T. R. Atkinson, and C. F. Moody. The committee in charge of refreshments is Mesdames Anna Gradin, George Robidow, Hauk and J. W. Burch.

The members of the Fort Lincoln chapter of the American War Mothers are invited by the American Legion to attend the Rialto theater tonight at 8 o'clock as guests of the Legion.

CURRENT EVENTS CLUB MEETS. Mrs. C. L. Robertson entertained the members of the Current Events club at her home, 222 Second street yesterday afternoon. An interesting program on Americanization was given. Mrs. Everts read a paper on "The Non-English speaking Mother," Mrs. Robertson read an article on "One Day's Appreciation of America," and Mrs. Overt Olson read a paper on the play "Abraham Lincoln," by John Drinkwater. Refreshments were served at the close of the meeting.

VISITING HERE. Carl Peterson of Chicago, is visiting his brother, John Peterson, of the Grand Pacific hotel, for several days. Mr. Peterson, who is a pipe organist will leave for California to visit Henry Tatley and will motor back to Bismarck with Mr. and Mrs. Tatley and daughter, Clara. Mr. and Mrs. Fred Peterson, who have been spending several weeks in Los Angeles with Mr. and Mrs. Tatley, are expected to leave for home about April 1 by train.

GIVES FAREWELL PARTY. Mrs. J. M. Hurrest, of 213 Second street, was hostess last evening at a farewell party in honor of Mrs. A. D. Gunderson. Four tables of cards were in play during the evening. A lovely luncheon was served by the hostess. Mr. and Mrs. Gunderson will leave the latter part of the week for Jamestown where they will make their home.

LEAVES FOR CALIFORNIA. Miss Augusta Peterson, who has made her home in Bismarck for many years, left yesterday for Los Angeles, California, where she will visit at the home of her sister.

MEN TO GIVE SUPPER. The men of the Methodist church will serve a banquet on Tuesday evening, March 28, at 8:30 o'clock to

VERY LATEST IN SUMMER HATS IS SWEET AFFAIR

A Cincinnati man has sprung the very latest in summer hats. The one in the picture is a sample of his work. 'Tis a sweet affair. It is a take off on straw material and is deep purple with a lighter shade of ribbon and lilac blue flowers.

The maker explains that it is not necessary to take this hat off on hot sunshiny summer days. Give it time and it will melt off!

For the maker is a confectioner. And the hat is all made out of sugar candy.

FORTNIGHTLY CLUB MEETS. An interesting program on Kipling and a war poets was given at the meeting of the Fortnightly club yesterday, held with Mrs. E. J. Taylor, at her home. Mrs. E. J. Taylor read a paper on Kipling, Mrs. P. E. Payne read a paper on Sassoon and other poets of the world war, and Mrs. Worth Lumry read a paper on Stevenson.

CLUB IS ENTERTAINED. Mrs. J. N. Robery entertained the members of the Idlers club at her home yesterday afternoon. Mrs. W. W. Mower won the high score at bridge, the diversion of the afternoon. Dainty refreshments were served.

LEAVES FOR NEW HAMPSHIRE. Mrs. George Pierce, who has been visiting at the home of her daughter, Mrs. Arthur S. Polster, of Washington Avenue, left this morning for her home at Nashua, New Hampshire.

VISITING FRIENDS HERE. Mrs. B. L. Weld of Cleveland, N. D., is visiting friends in the city for a few days.

LEAVES FOR FARGO. Judge Andrew Miller left today for Fargo, N. D., on a business trip.

ILLINOIS VISITOR HERE. C. C. Young of Pontiac, Ill., is a visitor in Bismarck for a few days.

HERE ON BUSINESS. H. Turvey of McKenzie, is in the city on a business visit.

TWO TONES. Very stunning are some of the new negligees which are being done in two tones of the same color. One of the loveliest of the models was made of very heavy but supple yellow satin with a loose lining of brilliant orange crepe.

SKIRTS. The skirts of silk frocks which are being shown for mid-summer wear are surprisingly full and some of them reach quite to the ankles. Puffings and flutings of all kinds are being used to exaggerate the effect of width.

PUDDING HINT. When you have no suet handy and need a little for puddings, chop some fresh drippings and use it in place of suet. It will answer quite as well.

TRIMMINGS. Trimming which emphasizes the width of the hat is quite the smartest fancy of the moment.

JET. Jet combs, bracelets and necklaces are the choice of the discriminating for wear with the all white frock.

Hemstitching. N. W. Kelley, 211 Broadway, Bismarck, N. D.

Dance every Tuesday, Thursday and Saturday evenings at 8:30 at The Coliseum. 10 Cents per dance.

WILTON VISITOR HERE. Mr. and Mrs. C. W. Howe and Mrs. Nugent of Wilton, were in Bismarck yesterday to attend the play at the auditorium.

VISITING IN BISMARCK. W. E. Partridge, and the Misses Clara and Anna Partridge of Washburn, were visitors in Bismarck yesterday.

HERE FROM BALDWIN. M. A. Nelson, George Nelson and H. M. Nelson of Baldwin, are visiting in Bismarck for a few days.

RETURNS FROM TRIP. F. E. Dehl of the Homebuilders association, returned yesterday from a business trip over the state.

MINNESOTA VISITOR HERE. Edward Goldenbeck of St. Cloud, Minn., is in the city looking after business interests here.

WILL GIVE FOOD SALE. The Board of Young People will give a food sale at the Perry Furniture company on Saturday.

CLEVELAND VISITOR. C. P. Buzzell of Cleveland, N. D., is a visitor in the Capital City for a few days.

HERE ON BUSINESS. Mrs. Ebba Olson of Wilton, is in the city attending to business matters.

PUDDING SAUCES

Sister Mary Tells How to Make Several New Ones

(Sister Mary's Kitchen.) Perhaps you are tired of whipped cream and hard sauce as company pudding sauces.

This orange sauce is delicious over a baked or steamed fruit pudding. The pudding will serve eight copiously or 10 comfortably. The pudding uses the yolks and the sauce the whites of the eggs, but the sauce might be used with an eggless steamed pudding and the yolks used for salad dressing.

Orange Sauce
Three eggs (whites), 1 1-4 cups powdered sugar, 1 lemon (juice), 2 oranges.

Beat whites of eggs with a whisk till stiff and dry. Sift sugar slowly into whites, beating constantly. Add the grated rind of both the oranges. Slowly beat in the strained juice of the lemon and one orange. Beat well and serve soon after making. If the sauce must stand any length of time beat well before serving as the fruit juice separates slightly.

Mock Whipped Cream
Two eggs (whites), 1 cup powdered sugar, 1 large apple.

Grate apple into bowl, add sugar and egg whites and beat with a Dover beater till stiff.

Gold Sauce
One cup powdered sugar, 1/2 cup butter, 3 eggs.

Put all ingredients in top of double boiler. Beat until mixture thickens and remove from fire.

Vanilla Cream Sauce
Two eggs, 1/2 cup sugar, 2 cups milk, 2 tablespoons butter, 1 teaspoon vanilla.

Beat eggs well and beat in sugar. Put all ingredients in top of double boiler and cook, stirring constantly, over hot water until as thick as cream. Remove from fire and beat in vanilla.

Nut and Date Pudding
Three eggs (yolks), 1-3 cup water, 1 1-3 cups flour, 2 teaspoons baking powder, 1-8 teaspoon salt, 1 cup walnut meats, 1 package dates.

Beat yolks of eggs with water till thick and lemon colored. Mix and sift flour, salt and baking powder and add to first mixture. Before stirring put the stoned and chopped dates and nuts on flour. Mix thoroughly and bake 45 minutes in a moderate oven. Serve with orange sauce made with the whites of the eggs.

Queen Sauce
Two eggs (yolks), 1 cup powdered sugar, 1 cup whipping cream, 1 teaspoon vanilla.

Beat yolks with sugar. Whip cream. Add whipped cream to yolk mixture and beat well. Flavor with vanilla and serve.

Plain Sauce
One cup sugar, 3-4 cup butter, 1 tablespoon flour, 2 cups hot water, vanilla or any flavoring desired.

Mix flour, sugar and butter. Pour over hot water and bring to the boiling point. Flavor and serve hot. (Copyright, 1922, NEA Service)

SHOULDER LINES
Shoulder lines on gowns designed for evening wear are exceedingly irregular. One of the newest effects is a veiling of chiffon or lace for one shoulder while the other is left quite without any attempt at sleeve.

ARTISTIC EFFECT
Good pictures are such expensive things that sometimes one hesitates to buy them when a home is first established. Panels of brilliant Chinese priat are being substituted for pictures by one clever woman—and lovely they are!

FANS
Lace and gauze spangled fans are quite the most correct and lovely accessory of the bouffant frock of the debutante. They are rivaling feather fans which are effective only with long lined gowns.

Freckle-Face
Now is the Time to Get Rid of These Ugly Spots.

Do you know how easy it is to remove those ugly spots so that no one will call you freckle-face?

Simply get an ounce of Othine—double strength, from your druggist and a few applications should show you how easy it is to rid yourself of freckles and get a beautiful complexion. The sun and winds of March have a strong tendency to bring out freckles, and as a result more Othine is sold in this month. Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove the freckles.

First Aid to Success
Just as success depends on clear thinking and hard work so does clear thinking and hard work depend on faultless eyesight.

about your eyesight—KNOW.
You may think your eyes are right, but don't "guess" Consult us. We are optometrists, licensed by the state of North Dakota to examine your eyes and give you the proper glasses.

We grind lenses in our own shop.

Bonham Brothers
Optometrists and Jewelers.

ATTENTION CHILDREN
Starting Thursday morning, March 23rd, we are going to give each child that gets a hair cut in our children's shop a number, on the 22nd of April at 4 p. m. these numbers will be put in a box and some child from the crowd will draw a number, the child holding the corresponding number will be given a new \$5.00 Bill.

We are going to give away a prize each month, so do not pass up the chance to win a prize.

Children that have already been up come in and get a number. CHILDREN UNDER SIXTEEN HAIR CUTTING 35 CENTS. Open 8 a. m. to 8 p. m.

HARTS MARINELLO SHOP
Rooms 3-4-5 Hughes Bldg., Opposite G. P. Hotel. Phone 896. Over Motor Car Supply Co.

Make It a Hot Dish

Everybody likes a hot dish for breakfast on a cold morning—it gives a warm, comfy feeling that fits you for the day's work in all sorts of weather. Start the day right by eating

Shredded Wheat

with hot milk. No matter how you eat it in Summer you will like it with hot milk in Winter. Contains all the natural sweetness of the whole wheat berry and hence needs no sugar. Better than mushy porridges for children because it encourages them to chew, thereby developing sound teeth.

For a warm, nourishing meal heat two Biscuits in the oven to restore their crispness; pour hot milk over them, adding a little cream and a dash of salt. Delicious with sliced bananas, prunes, raisins or canned fruits.

TRISCUIT is the Shredded Wheat cracker—a real whole wheat toast—and is eaten with butter or soft cheese.

WISHES HE HAD KNOWN IT SOONER. "I only wish I had discovered Foley's Honey and Tar 50 years ago, as I have been the victim of attacks of influenza and bad colds until I found this wonderful relief," writes W. H. Gray, 854 Nowita Pl., Venice, Cal. Foley's Honey and Tar helps coughs and colds, bronchial and la grippe coughs, tickling throat and hoarseness. It is good for croup and whooping cough. Mr. Gray adds: "Worth its weight in gold. Marvelously effective."—Advt.	ALL WHITE The all white sport togs for young girls are indistinguishably lovely; shaggy white scarfs with caps and wool gloves. Sometimes they are banded with shaggy bands of black.	BROWNING PIE Dissolve a little sugar in a quarter of a cup of milk, then brush the mixture over the pie crust and a few minutes heat will turn it a beautiful brown.
---	---	--

Ladies Band Meeting

Every Woman and Girl in Bismarck is urged to attend a band meeting THIS EVENING at the BUSINESS AND PROFESSIONAL WOMEN'S CLUB.

Our plan is to organize a woman's band. A talented bandmaster will explain the plan fully. Women should come and bring the girls along.

8 P. M. TONIGHT

"Splash away, Son—the floor is Valsparred"

"YES, you precious little rascal—you think you're getting back at me for that tiny bit of soap suds in your eye. But permit me, most excellent son, to inform you that the floor is varnished with Valspar—and that you : : d I are here just to tell people that even soapy water can't harm a Valsparred surface. So you can keep on pouring till it runs off the page!"

Valspar Varnish is not only exceptionally durable and easy to apply, but absolutely waterproof. It can be washed freely with soap and water. It will never turn white!

Anything that's worth varnishing is worth Valsparring.

GENERALLY GO BROKE

Joseph Leiter, who cornered the wheat market in 1897, testifies in a New York City court that the collapse of his corner left him \$3,250,000 in the hole.

That should interest the boys who, playing the grain market, wish they could engineer a Leiter corner.

Everybody knows about that famous Leiter corner. How it turned out for its operator will amaze many.

Spectacular success appeals to the public imagination, sinks indelibly into memory. Too bad, the public doesn't continue watching the gambling success until it collapses. It might teach many a valuable lesson.

Joe Leiter is recognized as about as good a grain operator as ever lived. He was what business writers call an "expert."

The bigger they are, the harder they fall. Gambling in stocks and grains—that is, plunging in speculation—gets them all. It's only a matter of time.

It gets you faster if you are an outsider, a financial moth.

A good many people watch the stock market as "a barometer of general conditions." Many believe that the stock market is a sort of supernatural ouija board with clairvoyant powers that foresee the future accurately.

The market is supposed to go up or down about three to five months ahead of general business.

This supposition is based on the fact that ticker quotations—when the market isn't a professional one, manipulated to attract the come-ons—show how the big gamblers are betting.

The epidemic of failures among brokerage houses reveals that, in the long run and on the law of averages the gambler's guess is worth just about as much as the sheep's—no more.

The only real barometer of business conditions is production—such as output of steel ingots, bituminous coal, grain movement to primary centers, exports, domestic cotton consumption and mail order sales.

The Wall Street Journal says a speculative craze is developing. The brighter the flame, the hotter and more scorching.

Small investors, who cannot afford to lose, had better keep their money in Liberty bonds.

THE JOBLESS

Seven hundred thousand former soldiers and sailors are out of work in the country, reports the American Legion.

A 30-days' national campaign is on, to provide jobs for these unfortunate veterans. Permanent positions or odd jobs will be welcome.

In this connection, the annual "clean up and paint up" campaign has started.

The smallest job looks as welcome as a mountain during a cloudburst, to the man out of work.

TRADE IN IVORY

Do you own anything made of ivory? If so, it probably passed through the Antwerp or London ivory markets during its long chain of sales between elephant killer and ultimate consumer.

A check-up shows that these two markets last year handled less than half as much ivory as in 1913.

Hard times have been world-wide. Every human on earth has suffered, more or less. Hard times have extended from the seats of governments to the heart of jungles. None small enough to slip through the net.

It is the price of war.

DREAMLAND

An argument has broken out among England's big writers, whether prohibition will curb the output of great literature.

Some of the New York magazine editors expressed the same fear when the country went dry.

There's a popular belief that writers have to be full of whiskey or opium to turn out masterpieces. It is pointed out that many of history's greatest literary men were drunkards or dope fiends.

The truth is, they wrote their stuff in spite of their alcoholic and drug vices, not on account of them.

With writers working with clear brains, literature will be afflicted with less of the poison of decadency. That will more than counterbalance any loss from the pens of scribes with alcohol engines.

FAMINE IN RUSSIA

The latest famine in Russia has affected 25,000,000 people, according to soviet publications. That's about the same number as were affected by the Russian famines of 1911 and 1906, and a third more than by the crop failure of 1891.

When all's said and done, food is what counts most. In varying degrees, everything else is excess baggage. Anything done to help the farmer helps every one eventually.

CLEVER SELLING PLANS

Man's brain is amazingly resourceful when necessity compels.

You see the thing work out in a great variety of clever selling schemes to induce people to buy.

An auto concern in the middle west—having several tons of German marks in its vaults, bought as a speculation—is giving each customer enough German marks to pay the face value of the car if the marks ever rise to par.

The scheme is working. Will gain rapid headway, for a speculative wave is reappearing as business slowly revives.

HORSES

Some one with a pocketful of sharp pencils has just figured out that the autos used in our country have a power equivalent to more than 300,000,000 horses. Or, in round numbers, three horses for every man, woman and child.

This shows how machinery concentrates and multiplies human energy in production.

In many commodities, the introduction of machinery has not lowered price much in the long run. But it has multiplied the commodities available for the average person—increased the standard of living.

GHOST THEORY EXPLODED

The Fushun coal mine in China has not been worked for 300 years, because the Chinese didn't want to disturb the spirit of Tai Tsu Kao, Manchu emperor buried near the mine.

That bit of superstition for three centuries has kept undeveloped a seam of 1,000,000,000 tons of coal.

Japanese forcibly opened the mine, started it producing. Chinese predicted earthquakes and other dire results. Now they notice that nothing unusual is being started by the ghost of the old emperor, and are flocking to get jobs at the mine.

The things we dread nearly always turn out to be non-existent bogies when tackled with courage—especially work.

FOOD EXPORTS

More wheat was exported from America in 1921 than in any previous year. Corn exports were the largest since 1910. This is shown by final government figures, just announced.

The fundamental purpose of our country, in international trade, is the supplying of food and raw materials to countries which, on account of dense population and small territory, are fitted only to produce finished goods.

Farmers need not worry about export market for their products. It will always be waiting. Prices will adjust themselves to fair levels. Need is for bigger and bigger crops.

SURPLUS OF CORN

Farmers still have a bothersome surplus of corn on hand—about 1,313,120,000 bushels.

But farm holdings of corn are 251,712,000 bushels less than a year ago. The corn problem grows smaller.

In four months the farmers have marketed 2,026,437,000 bushels. Prices have been low, but the big sales of corn have helped liquidate debts and stimulated the corn grower's buying power.

For general business, this is equivalent to a transfusion of blood.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

IS ALL CHARACTER PHYSICAL?

So many theories exist which attributed bad traits of character to physical conditions, that superficial thinkers are likely to doubt spiritual facts. We have all heard of criminal tendencies being checked by operations relieving pressure on the brain. It is easy to believe such results, because our spiritual purposes are given effect by the thinking done in the brain which directs our acts.

Now comes a Chicago professor who declares cowardice a matter of physiology and not of mentality and character. "Fear is caused by the suspension of secretion by the adrenal glands, which are just above, but not connected with, the kidneys," he says. Carry the news to army officers.

When a soldier falters and runs from duty, his adrenal glands are out of order, that's all. A fatal physical ability in war, for they shoot soldiers, who have it. In the next conception, a man whose adrenal glands cease their secretion when danger threatens, should be excused from service! That physical conditions disturb the brain and cause disagreeable spiritual manifestations all persons much in contact with dyspeptics know. But we cannot believe the soul, as revealed in the character of the individual, is a matter of physiology. It is something far above and beyond that—a spark of divinity and immortality if it is anything, which rises superior to the body.—Chicago Journal of Commerce.

EVERETT TRUE

BY CONDO

EVERETT TRUE
EVERY TIME I COME TO THIS THEATER ON TIME THE SHOW IS LATE ANYWHERE FROM FIFTEEN MINUTES TO HALF AN HOUR AND MORE! SEE IF WE CAN'T MAKE THIS THE LAST TIME!!!
MANAGER'S OFFICE
LADIES AND GENTLEMEN: WHILE YOU ARE PATIENTLY WAITING FOR THE SHOW TO BEGIN YOU WILL BE TREATED TO A LITTLE CURTAIN RAISER. THE MANAGER HAS KINDLY CONSENTED TO DO A STUNT FOR YOU. IT IS A BALANCING ACT. HE WILL STAND ON ONE FOOT TILL THE REGULAR SHOW IS READY TO BEGIN.
I THANK YOU.
BRAVO!
HOORAY!
ON, YOU EVERETT!!!

ADVENTURE OF THE TWINS

By Olive Barton Roberts

The Twins finished their supper and then put the empty dishes and napkin back into the little basket. Instantly it disappeared.

"We'll have to find some place to sleep," said Nick. "I wish we were on the Elderdawn Mountain, it sounds so soft. But it looks as though it was about a mile away. Let's crawl under this bush and start in the morning."

Nancy yawned. "All right, I'll hide the record behind this big stone so no one will find it." Which she did, and then scattered some gravel on top. They were soon asleep, their arms around each other's necks, and the kind little stars, which came out one by one, looked down smiling.

But there was no sleep for Twelve Toes, the Sorcerer. Away off in his cave beyond the first mountain he was storming up and down. In his nightgown, gnashing his teeth and shaking his fist and carrying on like—oh, I'd hate to tell you!

Because he had heard Kip, the Brownie, talking to the Twins on the Electric Mountain that afternoon. He had heard on his telephone. "Kip's given away all my secrets!" he raged. "How can I ever stop those kids now? They'll get that record to the princess as sure as I'm a wicked fairy, and then the princess will put it on her phonograph and hear the words of Longhead, telling her which king to marry. Oh, mustard! Oh, sardines, and red pepper!"

And then that wicked old fellow had a most terrible idea. "I can't follow them," he shouted suddenly, "but I can still do some damage."

Then he went to his map on the wall. "They're likely spending the night in the pleasant country between the Electric Mountain and the Elderdawn Mountain. I'll make myself into a bat and fly to the Dream Star. And I'll send down dreams that will make them walk in their sleep and they'll get lost. The Brownies are all asleep, so they can't help them."

"Yo, ho, ho! And a bottle of catsup! No, I mean a sweet mosquito. I'll have to find a way. Twelve Toes had turned into a black bat and flown out of his cave into the night."

(To Be Continued)

LEARN A WORD EVERY DAY

Today's word is CONCOMITANT. It's pronounced—kon-kom-tant, with accent on the second syllable.

It means—that which accompanies, an associate, a companion, that which goes along with.

It comes from Latin—"con," with, and "comitari," to accompany. Companion word—concomitance. It's used like this—"Sneezing and a feeling of lassitude are usually concomitants of a cold."

A THOUGHT FOR TODAY

If any man trespass against his neighbor, then hear Thou in heaven, and do, and judge Thy servants, concerning the wicked and justifying the righteous.—1 Kings 8:31, 32.

It is far easier to feel kindly, to act kindly, toward those with whom we are seldom brought into contact, whose tempers and prejudices do not rub against our own, whose interests do not clash with ours, than to keep up an habitual, steady and self-sacrificing love toward those whose weaknesses and faults are always forcing themselves upon us and are stirring up our own. A man may pass good muster as a philanthropist who makes but a poor master of his servants, or father to his children.—Frederick D. Maurice.

MANDAN NEWS

Loss to Milling Plant is Lowered

Loss to the Russell Miller Milling company local plant, thought to be heavy, has been estimated at not over \$5,000, following examination of the wheat stored in the bins, which were affected by the smoke and water Tuesday afternoon, when the elevator caught fire.

While about 15,000 bushels of high grade No. 1, Dark Northern wheat was stored in the one section affected, has been found that the smoke and water did not damage more than between 1,200 and 1,500 bushels of this. The elevator is being emptied.

Loss to the building was comparatively small.

A hot box on one of the pulleys over the scales is believed to have caused the blaze.

Girls Team Wins Basketball Game

The Mandan high school girls' basketball team won their return game from the Dickinson high girls Tuesday evening by a score of 18 to 16. The game was a hard fought contest and the Dickinsonites were in the lead during most of the game. The first half ended 12 to 7 with Mandan holding the small end of the score.

Following is the lineup of the teams:

Mandan: R. Arthur, f.; T. Wagner, f.; D. Hansen, c.; V. Seltz, g.; O. McCadams, g.

Dickinson: D. Sherriff, f.; Turner, f.; Richards, c.; Vranica, g.; Auer, g.

Subs for Mandan: Tipper, Rose and Edquest.

E. A. Ripley, Otto Bauer and H. G. Taylor left yesterday for Jamestown to attend a meeting of the A. F. and A. M. at the Jamestown temple.

William Beuknecht has returned from Marshfield, Wis., where he has been visiting at the home of his sister, Mrs. Beuknecht, returning with him, but stopped off at Jamestown for a few days' visit.

Mr. and Mrs. E. L. Peterson are the parents of a baby daughter, born at the Deaconess hospital yesterday morning.

AT THE MOVIES

"THE SHEIK" IS SHOWN HERE TO LARGE CROWDS

Abounding in lavish color, gorgeous costumes, beautiful settings, splendid portrayal by well-chosen players, and beautifully presented under the direction of George Melford, "The Sheik"

Keep Sloan's handy and apply freely, without rubbing, at the first twinge. It eases and brings comfort surely and readily. You'll find it clean and non-staining.

Sloan's Liniment is pain's enemy. Ask your neighbor.

ARE YOU A MOTHER?

This Mother's Advice Is Most Vital to You.

Minneapolis, Minn. — Dr. Pierce's medicines are excellent, especially the "Favorite Prescription." With my two youngest children I took the "Prescription" and the results were marvelous; it just kept me in a perfect state of health. I did not suffer with weak or bad spells and just felt fine during the whole period. And I had much less suffering than previously. Also both these babies were very strong and healthy. Dr. Pierce's Favorite Prescription is an excellent tonic for the expectant mother to take. — Mrs. E. N. Ross, 501 Tenth Ave. S.

The use of Dr. Pierce's Favorite Prescription has made many women happy by making them healthy. Get it at once from your nearest druggist, in either liquid or tablet form. Write Dr. Pierce, president in "aids" hotel in Buffalo, N. Y., for free medical advice.

a new Paramount picture, from the famous novel by E. M. Hull, opened to capacity at the Elitthe theater yesterday.

The public gave its unqualified approval of the picture. The story which deals with the capture by a young Arab Sheikh of a haughty English girl and their subsequent strange love romance with a wealth of thrilling episodes and incidents, proved highly effective. Agnes Ayres, a beautiful Paramount star and Rudolph Valentino, a romantic actor, who won fame in "The Four Horsemen of the Apocalypse," the featured players, were charming in their portrayals and headed an unusually clever cast of players.

The picture was seen last night at the Elitthe by capacity houses. Frank Gale sings "The Sheikh" at the opening of the picture and Harry M. Wagner plays a special score of music throughout.

THE CAPITOL

The management of the Capitol theater offers a trip to the moon to any one who will bring to this theater Friday or Saturday, a "sour" face, retain that "sour" face during the showing of "Chasing the Moon," and leave the theater still looking sour. If you wish you lose "Chasing the Moon," with Tom Mix, is the funniest picture in which this daring William Fox star has appeared. The offer, despite the great expense of sending any one on a trip to the moon, is an easy one for us because we do not have even a Chinaman could see this picture without rolling in laughter. Remember the dates and bring your troubles along. You'll lose 'em "Chasing the Moon."

If speeders were going to jail they would stop.

TO "BRING HOME THE BACON" VIA POTATO ROUTE

According to Figures Recently Published, Potato Acreage Will Be Increased

DATA FROM 8 COUNTIES

Fargo, N. D., March 23.—Wheat may be king in North Dakota now, but he has a mighty ambitious rival in the potato if the questionnaires signed by farmers during farm diversification week are to be believed. They are going to plant a lot of potatoes, according to these figures made public by the Agricultural college.

Data from only eight counties is available, but this is taken by extension division men to be fairly indicative of the trend agriculture is taking in the state. The questionnaires in the counties tabulated were signed by farmers, ranging in numbers from 23 to 135, and so, of course, are not representative of all the farmers in that county, it is explained.

According to these figures the 498 farmers reporting intend to increase their potato acreage 129 per cent; alfalfa 93 per cent; sweet clover 80 per cent; mares bred 67 per cent; corn 57 per cent; sows bred 47 per cent; milch cows 38 per cent and other tame grasses 35 per cent, the ones mentioned before.

One hundred and ninety-one meetings were held during the week with total attendance of 18,857, according to reports from all the counties in the state but four.

Percentage of increase planned for the various crops in the eight counties available are as follows:

Potatoes—Sixty-four farms reporting: corn 38 per cent increase; potatoes 90; sweet clover 152; alfalfa 134; tame grasses 60; milch cows 20; bred sows 25; and pure bred mares, 20 sows 25; and bred mares, no increase.

Potatoes—Forty-one farms reporting: corn 45 per cent increase; potatoes 100; sweet clover 178; alfalfa 148; tame grasses 11.

Divide—Forty-six farms reporting: corn 68 per cent increase potatoes 182 sweet clover 178; alfalfa 100; tame grasses 36; milch cows 28; bred sows 43 and bred mares 133.

Ramsay—Twenty-five farms reporting: corn 128 per cent increase; potatoes 220; sweet clover 52; alfalfa 200; tame grasses 36 per cent decrease; milch cows 32 per cent increase; bred sows 77 and bred mares 100 per cent increase.

Bothet—Forty-eight farms reporting: corn 8 per cent increase; potatoes 139; sweet clover 23; alfalfa 41; tame grasses 5 per cent decrease; milch cows 34 per cent increase; bred sows 15 and bred mares 12.

Grand Forks—On 135 farms reports show an increase of 21 per cent in corn; potatoes 79; sweet clover 6 per cent decrease; alfalfa 11 per cent increase; tame grasses 2; milch cows 53; bred sows 9; and bred mares 49.

Williams—Twenty-three farms reporting: corn 50 per cent increase; potatoes 86; sweet clover 91; alfalfa 1; milch cows 45; tame grasses 94; bred sows 86; and bred mares 77.

Foster—On 106 farms the corn acreage will be increased 62 per cent; potatoes 130; sweet clover 71; alfalfa 110; tame grasses 3; milch cows 37; bred sows 80; and bred mares 77.

THEY KNOW WHAT A CITY JOB IS

Velva, N. D., March 23.—Indications are that the present administration of city officials of Velva will stay in office for another year because no other ticket has been placed in the field. Mayor Welo and the entire board of aldermen, with the exception of I. L. Berge, have filed petitions to have their names placed on the official ballot in the city election, which is to be held April 3.

Petitions were circulated for C. T. Langridge to fill the place of Mr. Berge, who is planning to move from Velva. Albert Dickinson, police magistrate, and A. O. Anderson, treasurer, have also filed petitions for their respective offices.

"Irish Club Toasts King"—headline. He ought to be toasted, they've had him on the gridiron.

It's a wrong road that has no turning.

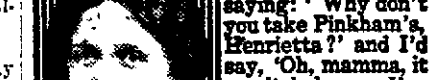

COULD NOT TURN IN BED

Operation Avoided by Taking Lydia E. Pinkham's Vegetable Compound

Dayton, Ohio.—"I had such pains that I had to be turned in bed every time I wished to move. They said an operation was necessary. My mother would keep saying: 'Why don't you take Pinkham's, Henrietta?' and I'd say, 'Oh, mamma, it won't help me, I've tried too much.' One day she said, 'Let me get you one bottle of each kind. You won't be out very much if you will believe me or not. But I only took two bottles of Lydia E. Pinkham's Vegetable Compound and one of Lydia E. Pinkham's Blood Medicine when I began to get relief and I am regular now since without a single operation.'"

When I lie down I can get up without help and without pain. I can't begin to tell you how I feel and look. I have begun to gain in weight and look more like I ought to. I think every day of ways I have been helped. Any one who does not believe me can write to me and I will tell them what shape I was in. I am ready to do anything I can to help your medicine."—Mrs. HENRIETTA MILLER, 137 Sprague St., Dayton, Ohio.

If you have any doubt write to Mrs. Miller and get her story direct.

It don't help you. I don't know if you will believe me or not. But I only took two bottles of Lydia E. Pinkham's Vegetable Compound and one of Lydia E. Pinkham's Blood Medicine when I began to get relief and I am regular now since without a single operation."

PROBE STARTED OF TAMPERING IN MILL OFFICE

(Continued from Page 1)

les, \$6,896.01; Equitable Audit Co., 405.00; Economy Supply Co., \$3,056.34.

Retroactive wages amounting to \$2,288.96 were paid by the Drake mill, covering "back pay" upon an adjustment with unions. The retroactive wages covered the period from July 1, 1920 to February 1, 1921. Among those who drew retroactive wages was Rose Keller, bookkeeper, who drew \$250 retroactive wages and \$35 over-time and additional wages of \$175 at the time of leaving the mill service. W. B. Hibbard drew additional wages at the time of leaving service of \$55.40.

The loss in manufacture of flour at the Drake mill is shown in the Bishop, Brissman report which shows as in the Equitable Audit Company report. The record for 1921 follows: cost of 15,833 barrels sold, \$112,028.60, or \$7.044 per barrel, total cost, expense, interest, etc., \$8,461.5 per barrel; net sales \$3,905.1 per barrel; loss \$1,566.4 per barrel. A statement for 1919 and 1920 is not made it is stated, because production records could not be found.

Regarding subscriptions of the Grand Forks Commercial club on bonds the audit report says: "Item of Grand Forks Commercial club, bond subscriptions, represents two cash deposits—\$50,000 on Aug. 20, 1920, and \$10,000 on Dec. 28, 1920. The additional \$3,800 is in the nature of subscriptions and were used for the payment of interest on subscriptions to July 31, 1921, in the amount of \$3,066.66 and cash deposited in the Bank of North Dakota of \$738.34 on August 29, 1921." This item was set up as liability and there is this explanation: "This transaction was apparently handled by the Secretary of the Grand Forks Commercial club, and no subscription list was on file in the office of the Grand Forks Mill, Industrial Commission or the Bank of North Dakota. No interim certificates or bonds appear to have been issued for the said amount."

The value of the Drake mill is fixed as follows by auditors: Original purchase, \$20,000; additions, \$9,089.08; furniture and fixtures, \$1,027.27; less depreciation reserve \$3,629.46; less depreciation in value, \$5,000; net worth of plant, \$21,476.69.

A total of \$23,053.79 applicable to 1920 sales of flour of the Drake mill on assignment has been written off the books by auditors as uncollectible. A large part of the consignments went to the Consumer Stores Co., now bankrupt. The balance of \$1,200 due on consignment is the amount estimated by the mill manager to be collectible.

Total sales of the Drake mill for the year 1921 amounted to \$134,077.00, of which \$119,729.66 was in flour sales.

In the summary of the cash transactions of the Mill and Elevator Association appears the laconic item: Donations—Recall fund \$2.00.

ANNOUNCEMENT.

To the Voters of Burleigh County:

I hereby announce myself a candidate for sheriff of Burleigh county at the June, 1932, primaries. I am a republican and have been a resident of Burleigh county for thirty-five years and if nominated and elected I promise to give faithful service. Your support will be appreciated.

Yours respectfully,

WILLIAM ODE.

SPORTS

HIGH SCHOOL'S CAGE MEN ARE OFF FOR FARGO

Enter Into Play For State High School Basketball Championship Friday, Saturday

THE TEAM IN GOOD SHAPE

The Bismarck high school basketball team is off for the tournament. The team left this morning for Fargo where the nine district tournament winners will meet for the state championship tomorrow and Saturday. The team is in good shape and confident of being in the fight to the finish. It is likely that Bismarck will play tomorrow morning. Drawings will be held in Fargo tonight or early in the morning.

A large number of high school students and Bismarck citizens who are interested in the high school were at the train this morning to wish the members of the basketball team good luck on their trip. The members of the high school gave several hearty yells to remind the boys that the school was backing them.

Much interest was taken in the musical contestants who left on the same train for Jamestown. The District Contest will be held in Jamestown Friday and Bismarck is sending eight students to compete for honors in that contest. Yells were also given for those who will enter the contest at Jamestown.

All games in the tournament will be played at the Agricultural college gymnasium. There will be games Friday morning, afternoon and Saturday morning, afternoon and evening. It is expected.

The Bismarck players who make the trip are Captain Alfson, Doyle, Sorvig, Burke, Middaugh, Klus and Brown. Brown will probably start the first game as forward.

Valley City and Dickinson high schools will be represented by strong teams in the state tournament.

Valley City, according to the results of the games played, is the strongest team entered in the tournament. During the season, the team played 18 games and lost but one to the Bismarck crew. Valley City won one game from Bismarck. Included in Valley City's schedule was Fargo, Mandan, Minot and Bismarck. The team played consistently all season and with four men in the lineup that played in the state championship team of 1921, Valley City should make an excellent showing.

Dickinson Strong

Dickinson can be counted on to show some fine basketball. The team started the season with flying colors and won seven games straight before being stopped by the Valley City team by a count of 22 to 11. From that point on the team played in and out ball, winning from some strong teams and losing to others of equal caliber. The Dickinson quint closed the season in a very successful manner by defeating the Bismarck crew by a score of 27 to 22, avenging a 27 to 20 defeat suffered earlier in the season.

Dickinson won the fourth district championship by defeating the strong Beach team by a score of 27 to 20. Valley City's team has a record to protect. This will be the seventh consecutive appearance in state tournaments for Valley City as representative of the second district. And the team has been successful in state competition, winning the championship three times within the last four years.

Expect Big Crowds

Athletic Director Stanley E. Borjeske, of the agricultural college said today that he expects that the tournament gate receipts will more than pay the running expenses and that he will have a goodly sum to turn over to the state high school athletic league. Fargo is expected to turn out in large numbers to the games and some great exhibitions of high school basketball are expected. If the Fargo team, which looks exceptionally strong, reaches the final game, the A. C. Army will not seat the spectators. Arrangements have been completed for the handling of nearly 3,000 persons at each game.

Word has been received from Valley City and Grand Forks that special trains will carry basketball fans to the tournament in case their proteges are successful in the preliminary contests Friday.

Final Game Early

Mr. Borjeske announced today that arrangements have been made to call the final game Saturday night at 7:30 in order not to conflict with the boxing card to be presented by the Fargo Elks Welfare association. He said that there will be a large number of basketball fans on the fight special from Wahpeton, that will want to see both the basketball game and the boxing show. The committee in charge of the Elks show readily agreed to call their first bout at 9:00 p. m. in the place of 8:30, as was originally planned.

TRIBUNE WANTS—FOR RESULTS

EAGLE

COLLINS WANTS WRESTLING BOUTS

Mike Collins, welterweight wrestler, now is living in Mandan, and he issues a challenge to all men of his weight or in the middleweight class. He has been wrestling in South Dakota and other places. He met Karunsarri, Ra Zeamer, ex-middle weight champion; H. C. Western, champion of the middle weight championship of the A. E. F. Collins is in good form. His address is Mandan, general delivery.

WOULD BOOST H. S. ATHLETIC COMPETITIONS

Track and Field Meet For Championship High School Athletes of Country Is Suggested

High school athletes of North Dakota may have a new prospect of competition opened to them through an action of the officers of the North Central Association of Secondary Schools at Chicago recently. The officials requested a committee in charge of the National Collegiate Athletic Association track and field meet to stage, at the same time, and on the same basis, a track and field meet for the championship high school track athletes of the country.

This request, which athletic supporters are inclined to believe is the first record in which a strictly faculty body has asked the initiation of a new track meet, will go to a committee made up of A. A. Stagg, of Chicago, to whom the request was forwarded, Thomas Jones, of the University of Wisconsin and John L. Griffith of the University of Illinois. The action this committee will take in answer to the request is problematical. That a high school meet of this character would have a great vogue throughout the middle west, the west and the south goes without saying.

The National Collegiate Athletic association meet was planned as a meeting of the champions. In the original plans, only men winning in a recognized statewide conference meet were eligible. In the first meeting held at Chicago last year, these bars were lowered slightly, but the athletes attending, with two exceptions from a Chicago school, all were winners in some meet and most of them were winners in meets of the standing of the Eastern Intercollegiate, the Big Ten, the Missouri Valley, or the Big meet in the south. In several of the events, the officials regarded the field as the best that had ever competed in collegiate affairs, this being especially true of the number in the Javelin throw.

The second meet of the National Collegiate Athletic association will be held June 17, at Stagg Field, Chicago, and the request of the officials of the No. Central association is that on the same track and field, a high school meet will be held, which will be to the high schools of the United States what the National Collegiate meet is to the college world.

If the committee accedes to the request and holds the meet, the North Dakota high school track and field athletes who are winners of the meet at the University of North Dakota May 19 and 20, will be eligible. The high school field of athletes is so much larger than the college field, however, that rules may be necessary to provide for the entry only of men who have accomplished certain marks in meets. This elimination takes place in the college world through the competition of the athletes in the big conference meets, where even winners of state competitions have a hard time to win.

The request of the faculty men, an unusual one in the history of athletics, may mean the opening of a new field to high school athletes and a chance to test the interscholastic ability of the athletes of many sections.

Dance every Tuesday, Thursday and Saturday evenings at 8:30 at The Coliseum. 10 Cents per dance.

Makes the Best Bread

Bakers are always willing to pay a premium for hard spring wheat flour. Millers are always willing to pay a fancy price for a fancy car of heavy wheat with dark vitreous kernels. Will you grow it? There is no money in scrub varieties.

Good farmers can and do grow bread wheat. It may be a debatable issue whether we ought to put in a larger acreage but this is sure: We must make every acre produce wheat of fine quality and forsake all-out slipshod methods in growing wheat as we should in breeding cows.

Merely reduction of acreage will not solve the problem.

In order to succeed, we must grow more good wheat on a less acreage. It is much better to grow, for instance, eighty acres of fine spring wheat, forty acres of a cultivated crop, forty acres of a clover crop, than to attempt to grow 160 acres of wheat which has not been given the proper attention.

If farmers will grow good wheat, there is money in wheat. If we can grow but the lower grades, there is no money in it for anyone and the price of this poor wheat cannot fail to lower the price of even the good wheat that our good farmers are growing.

SPRING WHEAT CROP IMPROVEMENT ASSOCIATION

BROOKLYN RATED MUCH STRONGER TEAM

Pitching Ace And Two Recruits

INFIELDER POST

By NEA Service.

Jacksonville, Fla., March 22.—"Best looking bunch of athletes Brooklyn has had in 40 years."—Squire Ebbetts, owner of team.

"Those ivory hunters sure dug up a lot of good, big promising pitchers."—Manager Robinson.

"We've got a secondary defense stronger than in 1920 when we copped the pennant."—Scout Larry Sutton.

"The boss wanted catching strength. I gave it to him with Hungling and DeBerry. The team looks mighty good to me."—Scout Nap Rucker.

There you have the opinions of the four men overseeing the spring prep of the 1922 Dodger outfit.

A consensus of the big four, plus scattering comments by experts who have watched the squad at work, make the Dodgers the "dark horses" in this year's pennant dash.

The morale is better even than the squads of 1916 and 1920, the Dodger pennant years.

Last spring Robble started off with three dis-satisfied stars who never got into condition, he had no reserve fielding strength.

Early in the campaign was forced to use Hi Myers at second base.

The pitchers complained of being overworked trying to trim the Yankees in the spring exhibition games.

The catching was slow and mechanical. The fielders, having no rivals on the bench, were sure of their jobs and with few exceptions jazzed it.

This year the Dodger chieftain has two or three players for every position, many of them capable young, hustling lads from the minors who are making

the veterans watch their step.

There are 36 veterans and recruits in the Brooklyn squad—16 pitchers, four catchers, nine infielders and seven outfielders.

Brooklyn intends to carry the full limit of 25 players this season. That is another sign of improvement. Last year Owner Ebbetts was satisfied with 21.

Last year the club was several times severely handicapped by lack of capable substitutes.

The plan this year is to carry nine pitchers, three catchers, eight infielders and five outfielders.

WITH THE BOWLERS

Aure Bros. took two and tied one in a five-pin match with Christenson and Donahue last night on the American alleys.

In a second match Christenson and Donahue took three straight from Smith and Jones, with a total of 283 pins.

M. Aure rolled high single, 63; and high set, 154.

Donahue	23	32	53	*114
M. Aure	63	39	52	154
Christenson	52	46	26	*124
O. Aure	47	40	36	123
Total, Christenson and Donahue	*238			
Total Aure and Aure	277			

CATCHER DEBERRY.

TIDAL WAVE STRIKES VENICE

London, March 22.—A Central news dispatch from Venice says a tidal wave last night inundated the city, the water rising to a depth of more than three feet in some of the public squares.

Venice is subject to periodic inundations, but the squares are under water only a few inches normally.

12-YEAR-OLD GIRL TELLS OF FORGING CHECK

New York, March 22.—Twelve year old Nellie Glaske, one of the chief witnesses for the state against Tex Rickard, sports promoter, charged with criminal assault against Sarah Schanzfeld, 15, admitted under cross examination of Rickard's counsel today that she had forged checks and committed a burglary.

She also admitted having lied to policemen and truant officers who had picked her up at various times.

Quietly and without emotion she answered questions concerning her past and also testified that her sister, Sarah, had friends among sailors who had asked her to visit the Brooklyn navy yard.

NOW \$50
The Twin City Barber College has started its Summer term and now offers its complete course for \$50, a saving of \$25 over the Fall and Winter term rate. Personal attention given to each student by our staff of competent instructors. The Barber Trade offers exceptional opportunities for men with limited capital. NAME OFFICERS OF COMMITTEE

Goddard Named Chairman of Committee of Forty-five

Fargo, March 22.—Members of the "committee of 45" met here today and organized for the coming campaign by electing H. F. Goddard, of Bismarck, chairman and Mrs. John Gammon, of Fargo, secretary. Methods of procedure occupied the attention of the session.

Judge B. F. Spalding, one of the

members of the committee, announced that the convention at Jamestown he was authorized to call at a recent meeting in Grand Forks, probably would be held late in April.

Mrs. Gammon formerly was Miss Miss Florence McPhee of Bismarck. Mr. Goddard has been active in the previous campaign having been manager in Burleigh county for the I. V. A. campaign organization. He is now engaged in auditing work for the Guaranty Fund Commission and the bankers association. He has been entered as a candidate for the Bismarck Guaranty Fund Commission and the

This May Not Be a Discovery. Egotism is like money. We always think someone else has too much of it.

How Firestone Has Reduced the Cost of Tire Service

Size	Jan. 1921 Prices	Jan. 1922 Prices	Reduction
30 x 3 Fabric	\$18.75	\$ 9.85	47%
30 x 3 1/2 "	22.50	11.65	48%
30 x 3 1/2 Cord	35.75	17.50	51%
32 x 4 "	56.55	32.40	43%
33 x 4 1/2 "	67.00	42.85	36%
33 x 5 "	81.50	52.15	36%

HOW the cost of building quality tires has been brought down to the lowest level in history was explained by H. S. Firestone, President of the Company, to the stockholders at the annual meeting on December 15, 1921.

1. All inventories and commitments at or below the market.
 2. Increased manufacturing efficiency and volume production reduced factory overhead 58%.
 3. Selling costs reduced 38%.
- Mr. Firestone stated, "This reduction in prices is made possible by our unusually advantageous buying facilities, and the enthusiasm, loyalty and determination of our 100% stockholding organization."
- "Due credit must be given to Firestone dealers who are selling Firestone tires on a smaller margin of profit. This brings every Firestone saving direct to the car-owner."
- The saving through first cost plus the saving through high mileage doubles Firestone economy and is daily adding new fame to the Firestone principle of service—
